## THE UNIVERSITY

**History of the University** The Jesuits came to New Orleans in 1847 with the purpose of establishing a college of Liberal Arts and Sciences. On February 1, 1849, the College of the Immaculate Conception, founded by them, began its remarkable career at the corner of Baronne and Common Streets. To it was attached a college preparatory academy. In 1904 the Jesuits opened an academy and a college on St. Charles Avenue opposite Audubon Park. These two associated institutions were known as Loyola College. In 1911 the College of the Immaculate Conception was united with Loyola College on the present Loyola campus. The Academy of the Immaculate Conception became the Jesuit High School. With it was united the preparatory school of Loyola College.

In response to a general demand from the public and an urgent request from His Excellency, Most Reverend James J. Blenk, then Archbishop of New Orleans, Loyola College was expanded into Loyola University in the fall of 1911. The University was authorized by the General Assembly of Louisiana in 1912 to grant all university degrees.

Loyola University of the South is but one of the many educational institutions conducted by the Jesuit Fathers in the United States and in many other countries. In the United States alone, the Jesuits conduct 68 educational institutions with a total enrollment of more than 107,664 students.

**Jesuit System of Education** Jesuit universities and colleges are unique in their characteristic educational methods. Theirs is a system of education based on the best traditions, the experience, and the research of the better educators in many countries through many centuries. The fundamentals of this system are embodied in a collection of pedagogical principles and practices known as the *Ratio Studiorum*.

This system is distinctive in its aim and objective as well as in its method of approach. Thoroughly convinced that religion is not an appendage to education, but a very vital part of the training of the student and of the subject-matter of his courses, the Jesuits always have held as the goal of education the blending of the supernatural with the natural. Their purpose has been to educate the whole man, seeking to develop his moral character as well as his mind, his soul as well as his body;

believing that a true, cultured citizen of any state must be loyal to his God, his church, and his country.

As college life is the field in which youth with energy and initiative seeks to prepare itself for life's struggles, literature and science are studied in the light of an all-embracing philosophy which unifies knowledge and motivates action. The system is opposed to the pedagogical errors of undigested cramming, uncorrelated electives, over-specialization. The formation of habits of study, reading, and research, of quick thinking and exact expression is characteristic of their aim. Personal contact with the professors, whose example, taste, and experience are often a more potent factor of education than the professional lecture, is a vital part of the system.

Jesuit education prepares its students for eternity as well as for time; for life as well as for vocation.

**The Need of** Today, the professions, the arts, the sciences, as well as business, look for a college education in their members. The mere specialist, the master of one skill or subject, does not make for progressive civilization and culture. Man as a social being must have a broad vision and wide experience. He must be familiar with many fields of thought and interest.

This rounded culture should be the fruit of college experience. Through selected courses, the investigating mind is led into the various fields of systematized knowledge. Correlation of these courses makes for unity and thoroughness, for mastery in one's chosen field without ignorance of the others, for a well-stored mind that has been trained to think for itself and has grown capable of working out problems that present themselves in school and in later life.

Besides, one learns poise and refined bearing, acquires prudence and good judgment, from daily contact with fellow students of talent and ambition. By this association with one's fellow men of the best type, defects are overcome, habitual attitudes are adopted and perfected, and character is molded.

**Bequests and Gifts** Because of its rapid growth the University must look to its friends and benefactors, and to all those whose bounty is being devoted to the cause of higher education, for the generous contributions which will enable the University

to continue its building program. The University hopes for a continuance of financial as well as moral support from those who believe in placing college education within the reach of every deserving student, and who consider that education the safest and best which postulates as the foundation of its intellectual development the formation of character through moral and religious education.

The University cherishes the memory of all its benefactors, great and small. These share in the good works and prayers of the Jesuits of Loyola. Their generous assistance to the University, according to their means, will be remembered long after they are gone.

Among the distinguished benefactors of the University should be mentioned: Miss Sarah Babb, Mr. and Mrs. E. J. Bobet, Mrs. Paul Bordenave, Hon. Joseph A. Breau, Mr. Otto F. Briede, Jr., Mr. Joseph P. Buckley, Mr. and Mrs. Wm. P. Burke, Miss Leonora Del Bondio, Mr. Lawrence Fabacher, Mr. Edward Fassmann, Miss Mary Ferguson, Mr. Bernard Ghio, K. of St. G., Mr. G. R. Katz, Miss Mary Agnes McCabe, Miss Katherine McDermott, Mr. Edgar Murray, Mrs. J. B. Palmer, Mrs. Emma P. Quintero, Mrs. Louise Joute Rabouin, Mrs. Isabelle Melancon Scudder, Mrs. Olive Stallings, Mrs. George Swarbrick, Mrs. S. O. Thomas, Mr. and Mrs. W. J. Vincent, Miss Lilly Whitaker.

Those who are desirous of helping Loyola University in its sublime mission of higher education by erecting buildings as family memorials, or by endowing departments or lecture-chairs in any of its schools or colleges, are requested to make their donations, legacies and bequests in the proper legal form, as shown in this Bulletin. One may specify the purpose for which the gift is to be used. This intention will be observed scrupulously. It is well to state whether the sum is for building and equipment or for endowment, as the latter must be invested and only the accruing interest may be used.

**Scholarships** Through the generosity of friends, the University is able to offer a limited number of scholarships each year to bright and ambitious young men of fine moral character. The University is very happy to be able to assist these young men in getting a higher education which will prepare them for outstanding citizenship. The President and faculty are deeply grateful to their friends who with noble Christian spirit have

extended a helping hand to the less fortunate. It is earnestly hoped that others will help to increase our scholarship fund for the benefit of deserving young men.

*A Perpetual Scholarship* is founded when an endowment of \$15,000.00 is set aside for this purpose.

*A Course Scholarship* represents an amount which will cover the tuition and general fees of one student during his four years of college. The sum of \$1800.00 may be deposited or \$450.00 may be paid annually.

*An Annual Scholarship* is provided by the yearly donation of \$450.00.

Most of the scholarships listed below are valued at \$200. The holder of the scholarship must pay the remainder of the University charges at the beginning of the year, and he must at all times set an example of good conduct and serious application. The honor will be forfeited by any holder of a scholarship whose grades during the semester are unsatisfactory. Scholarships granted in a specific college cannot be transferred to any other school or college of the University.

Scholarships are awarded each year by the Committee on Scholarships which meets about the middle of July. Application blanks may be obtained from the Dean of Students and must be returned to him before the first of July.

The following are scholarships which have been placed at the disposal of the University:

- The W. P. Burke Scholarships (three).
- The Rev. Francis X. Twellmeyer, S.J., Scholarship.
- The Rev. A. E. Otis, S.J., Scholarship.
- The Rev. Albert J. Biever, S.J., Scholarship.
- The Louisiana State Councils of K. C. Scholarships (seven).
- The St. Ignatius Scholarship, founded by Miss E. S. Fitch.
- The St. Ignatius of Loyola Scholarship.
- The Men's Sodality of Jesuits' Church Scholarship.
- The Francis Xavier Wegmann Scholarship.
- The Virginia Bobet Scholarship.
- The Louise Thomas Scholarship.
- The Albert J. B. Lapeyre Memorial Scholarship.
- The Ladies' Marquette Auxiliary Scholarships (two).
- The Mrs. Josephine Burke Palmer Scholarships (two).

The Hon. Joseph A. Breaux Scholarships (ten).  
The Joseph A. Lipari Scholarships (three).  
The Louise Jouet Rabouin Scholarships (two).  
The G. R. Katz Scholarships (two).  
The Otto F. Briede, Jr., Physics Scholarship.

## FORM OF GENERAL BEQUEST

*I hereby give and bequeath to Loyola University, New Orleans,  
Louisiana, for the use of said institution in fulfillment of its  
general corporate purpose.....*

(State here the sum of money desired to be given, or, if it be the residue of an estate, state this fact.)

---

## FORM OF BEQUEST FOR A PARTICULAR PURPOSE

*I hereby give and bequeath to Loyola University, New Orleans,  
Louisiana, for the following purpose.....*

(State clearly the special object of the bequest, as well as the sum of money or property, real or personal, constituting the same.)

## ALUMNI ORGANIZATIONS

**General Alumni Association:** The Alumni Association of Loyola University is composed of the former students of Loyola University and its predecessor, The College of the Immaculate Conception.

**Alumni Clubs:** At the present time there are five organized clubs. They are: Alumnae, Business Administration, Dental, Law, Pharmacy. The oldest of these clubs is the Alumnae, its membership is composed of the women graduates from all Schools and Colleges of the University.

**General Alumni Association Activities:** The activities of the association are the Quarterly Mass, Communion, and breakfast; Annual Alumni Children's Party; Reception for graduates; Annual "Pops" Concert, and the Annual Homecoming Celebration.

The Association has six Masses offered during November for all deceased members and has two Masses offered for each alumnus at the time of his death.

**Alumni Club Activities:** Aside from the general activities, each club has a varied program of special interest to its particular group.

**Loyola University Alumni Advisory Council:** This Council is a working body composed of officer representatives of all schools and colleges on the campus, presidents of all organized clubs, a Jesuit faculty adviser, and the executive alumni secretary. Members of the Council are chosen so that all age groups in the alumni association are represented.

**The Alumni Office:** The Alumni Office, located on the campus, was founded in 1938. It was organized to promote the work of the local alumni and to co-ordinate the various activities.

**Men of the South of Loyola University** *Men of the South* of Loyola University is a magazine published eight times a year by the Alumni Association in the interest of the alumni and the University. It aims to keep the alumni in touch with one another and with the University. It is mailed to all alumni members.

## ORGANIZATION AND ADMINISTRATION

**Organization** The College of Arts and Sciences at present conducts the following departments: Biology, Chemistry, Classical Languages, Education and Physical Education, English, Journalism and Speech, History and Political Science, Library Science, Medical Technology, Modern Foreign Languages, Philosophy, Physics and Mathematics, Sociology, and Theology. In these departments the College offers courses leading to the degrees of Bachelor of Arts, Bachelor of Philosophy, and Bachelor of Science. It also conducts pre-professional courses that qualify students for entrance into the professional schools of Dentistry, Engineering, Law, and Medicine.

**Nursing** Although Loyola University does not grant a degree in Nursing Education, it offers on-campus courses in partial fulfillment of requirements for the degree in Nursing Education.

Nurses now in training in the Hotel Dieu School of Nursing and Mercy Hospital fulfill their collegiate requirements for the Degree in Nursing Education at Loyola University.

**Classical Studies** It is one of the regrettable results of the present unrest in the educational world, where the forces arrayed to give vocational training, mechanical development, wage-earning skill, and physical culture are clashing with the traditional classical methods, that the cultural and academic subjects have lost much of their former prestige. No other curriculum has been found to provide the comprehensive training of mind, heart, and will as surely and as efficiently as did the classical studies when they flourished in a golden age as the cause and the fruit of erudition, scholarship, and refinement.

**Modern Sciences** It is a grievous error to believe that the lovers of literature and art must be enemies of science and invention. The history of science shows plainly how the great scientific discoveries came out of the institutions hallowed for their classical learning. Until recent times all scientific information and the disputes and inventions of scientists found their way to the public through the Latin tongue.

Ample facilities are offered in the College of Arts and Sciences for the lover of natural science. Large, fully equipped laboratories for general and specialized chemistry, biology,

medical technology, and physics are provided. Consecutive courses covering four years of intensive study lead to the degree of Bachelor of Sciences.

**R.O.T.C. Unit** The Department of the Army maintains a Senior Division of the R.O.T.C. at Loyola University of the South, which is classified as a CC (Civilian College) institution. The mission of the Reserve Officers Training Corps is to produce junior officers who have the qualities and attributes essential to their progressive and continued development as officers in the Army of the United States. The Military Department of Loyola University of the South places special emphasis upon leadership to assist Loyola men in meeting any situation in life with success and honor. **Enrollment in the R.O.T.C. Unit is obligatory for all male freshmen and sophomores in the College of Arts and Sciences.** Information about the Loyola R.O.T.C. Unit is contained on pages 69-74 of this Bulletin.

**Student Loans** The University in conjunction with a local bank provides a loan service for students to defray the costs of tuition and fees.

All applications for Student Loans, except those from incoming freshmen, must be submitted to the Dean of Students at least one month before registration day of the semester for which the loan is requested. A loan covering full amount of tuition and fees may be granted for the first semester. For all subsequent semesters, loans may be granted up to one-half the amount of tuition and fees.

**University Chaplain:** The University appoints a Priest, together with needed assistants, to the post of University Chaplain for all of the students. He is at their disposition at all times to guide, counsel and advise. The students will find him ready to assist them in their spiritual, personal and individual problems. He is, also, in general responsible for all the organized spiritual activities on the campus.

**Medical Service:** Loyola University maintains a medical service on the campus. This service insures a safe health program for both students and faculty.

It is operated under the following rules:

1. Students entering Loyola for the first time or re-entering the University must undergo a physical examination before their registration is officially completed.
2. The University may also require physical examinations at other designated times during the student's stay.
3. A student may be refused admission to the University on the recommendation of the medical examiners. This board also may request a student already enrolled to withdraw.
4. A student may see the University Physician on appointment.
5. Patients confined on the campus will be visited by the University Physician.
6. Medicines or hospitalization are not provided by the University's health service.

**Sodality of the Blessed Virgin Mary** For the purpose of fostering religious faith and fervor, and to encourage the students to spiritual and scholastic leadership, the University Sodality offers many opportunities for personal development as well as training and practice in social work and religious activity. Weekly meetings are held for the discussion of phases of Catholic life.

**Student Council** The Student Council consists of twenty-seven members, representing the College of Arts and Sciences, the Schools of Law and Dentistry, and the Colleges of Pharmacy, Music, and Business Administration. These students are selected by the student body with the approval of the faculty. The duty of the Council is to unify student thought and action. It conducts general meetings and elections, sponsors and manages interclass contests, contributes to the student publications, and leads and directs student activities.

**N.F.C.C.S.** Under the leadership of the Student Council, student extra-curricular activities at Loyola are affiliated with the National Federation of Catholic College Students. A regional division of the National Federation has been established in New Orleans for the purpose of unifying and strengthening the major extra-curricular projects of the Catholic Colleges of the city.

**The Philosophy Club** The function of the Philosophy Club is to promote greater active interest in scholastic philosophy by more intensive study, lectures, and public disputations.

**Language Clubs** To foster a deeper appreciation of the finer literature of modern foreign languages, French, German and Spanish clubs are conducted for those more advanced students who qualify for membership.

**Pan-American Club** The purposes of the Pan-American Club are to stimulate friendly cooperation among the Spanish and English speaking students, to seek a better understanding of Latin America, to aid Latin American students who are entering the University, to minimize their difficulties with the English Language and to spread the knowledge of the Spanish Language among the North American Students.

**Scientific Societies** The Biology, Chemistry, Physics, and Mathematics Societies meet regularly for the discussion of special problems and for special lectures on scientific subjects. The students of the College of Arts and Sciences are eligible for membership subject to the respective special requirements for admission to each society.

**Radio Club** The Amateur Radio Club was organized in September of 1945. Its primary purpose is to foster interest in Amateur Radio. Movies, lectures, and actual contact with amateur equipment serve to prepare members who are prospective licensees. Much long distance work has been carried on through W5LJY operating on 10 meters. A genuine interest in Amateur Radio is the only prerequisite to membership.

**Debating Clubs** The students are encouraged to participate in exercises of public speaking. To further this activity two debating clubs conduct programs and engage in intercollegiate debates with other universities in various sections of the country. These two clubs are known respectively as The Edward Douglass White Society and The Chief Justice Charles A. O'Niell Society.

**Dramatic Clubs** The purpose of the dramatic clubs is to develop and give an outlet to the dramatic talent of the students. With this object in view, several plays are given during the year.

**Pegasus Poetry Society** Pegasus has as its purpose to further interest in poetry, to sponsor symposia and to study poetical works in general.

**The Academy of Fine Arts** The Academy aims to give its members more contact with art and to offer students the opportunity to acquire an esthetic appreciation of the great masters in painting, sculpture, architecture, and music.

**Glee Club** Students of the College of Arts and Sciences are eligible for membership in the Loyola Glee Club. The Glee Club takes an active part in the public entertainments and assemblies of the University.

**Campus Capers** Campus Capers is a student musical good-will troupe. All talented students of the University, instrumental and vocal, are eligible. It provides entertainment at various University functions. The troupe presents, moreover, a weekly radio show, makes television appearances and gives performances at Service Hospitals, veterans' institutions, and charitable benefits.

**University Band** Membership in the University Band is open to the students of the College of Arts and Sciences if they have the required ability and training. All who become members are required to be regular and prompt in attendance at the appointed rehearsals and at all performances.

**The Pep Club** The Pep Club provides organized and effective cheering for all athletic events. It helps towards a vibrant school spirit. All co-eds are eligible for membership.

**Agramonte Pre-Medical Society** Agramonte aims to prepare its members for the study of medicine. Its activities include lectures and tours concerning medical subjects. Membership is open to all Pre-medical students in good standing.

**Dr. Edward A. Gamard, Sr., Pre-Dental Society** The Gamard Pre-Dental Society sponsors lectures, movies, and tours to promote interest in dentistry. Membership is open to all Pre-dental students in good standing.

**The Medical Technology Club** The Medical Technology Club serves as a medium to foster better understanding between faculty and students; to provide a common ground

upon which all student members of the department can meet; and to foster student activities. Membership is open to all students of Medical Technology in good standing. This group sponsors the annual TNT variety show produced to provide a student scholarship.

**The El Ed Club** The El Ed Club stimulates unity among future teachers. All Elementary Education majors are eligible for membership.

**Student Publications** The students of the University, under faculty supervision, issue three publications: The Maroon, a weekly, the Wolf, an annual, and the Students' Handbook. The editors are appointed by the Committee on Student Publications, and the editorial staffs are appointed by the editors. The business management is in the hands of the students.

**Honorary Scholastic Fraternities** In order to give recognition and encouragement to high standards of scholarship among the students, several honorary scholastic fraternities have been established on the campus.

**Delta Epsilon Sigma** D. E. S. is a national scholastic honor society for students and graduates of Catholic colleges and universities. Members are chosen from the College of Arts and Sciences only, on a basis of good character, liberal culture, and high scholarship. Candidates must have at least a "B" rating throughout their four years.

**Alpha Sigma Nu** A. S. N. is a national scholastic honor society for male students of Jesuit colleges and universities. The two highest ranking students in each school or college of the University are nominated for membership each year, and the final selection of members is made from their number.

**Service Fraternities** In order to provide wholesome outlets for non-academic campus activity three service organizations have been formed.

**Blue Key** This is a national honorary service fraternity whose members are chosen by the active student chapter from male students who have distinguished themselves in leadership, activity, scholarship and service rendered the University.

**Alpha Pi Omicron** These two service organizations are open to and male and female students respectively who  
**Lambda Sigma** have proved their ability and willingness  
**Lambda** to lend varied assistance to the faculty and students of the University. These organizations were founded to foster the development of leadership, activity, loyalty and generous service to the University. Any student of the University is eligible to join one of these organizations.

**Loyola Forum** The Loyola Forum is an educational, entertaining program designed for the students' benefit and enjoyment. The Forum spreads Catholic truth and culture—the truth and culture inculcated by the University within its walls—to the outside world by bringing to New Orleans famous Catholic personages, prominent in every field—business, religious, scientific, artistic, governmental—to lecture on current issues and personal experiences.

**Press Relations Committee** The aim of the Committee is to prevent Catholics from falling victims to what Pope Pius XII calls “the flood of black paganism,” that is being poured forth constantly by today's newspapers, magazines, books, movies, etc. The Committee analyzes misrepresentations of the Church publicized by the modern opinion-forming agencies, and presents the results of its research in bi-monthly bulletins.

**Students' Retreats** Convinced of the great value of the Spiritual Exercises of St. Ignatius, the faculty of Loyola makes provisions for its students to follow these Exercises in what is called a Retreat. These retreats are of three kinds, namely, campus week-end retreats, closed retreats at Manresa (Convent, La.) for the men, or closed retreats at Lafayette for the ladies; or, finally, a general retreat for all in the college church.

## ENTRANCE PROCEDURE

**Application For Admission** Applicants for admission to the Freshman class must meet the requirements stated below under Methods of Admission. The specific units of credit that are required and other units that may be presented for admission to the Freshman class are listed under Admission Requirements.

*Application for admission accompanied by proper credentials must be filed with the Registrar at least one month prior to the*

*Registration dates for the Fall and Spring. Applications received after these dates will be considered only if student quotas have not been filled.*

Applicants for admission as freshmen, or with advanced standing, must submit official records from all schools and colleges attended. These credentials are to be sent directly by the proper officer of the school or college in which they were earned and not through the student. Credentials which are submitted for admission become the property of the University, even in the case of applicants to whom admission is denied, and are kept permanently on file. Blank forms for transcripts of records may be had on application to the Registrar.

It is recommended that applicants who desire admission immediately upon graduation from high school have their credentials sent to the Registrar at the beginning of the last term of their senior year. These credentials should include the past scholastic record, together with a list of courses in progress during the final term of the senior year and the applicant's rank in class. This will enable the Committee on Admissions to grant tentative admission pending receipt of complete and final records which should be sent to the Registrar by the high school principal immediately after graduation from high school.

The University reserves the right to refuse admission to applicants whose previous work is of such a grade as to create a doubt regarding their ability to pursue successfully their scholastic work in the University.

All students are expected to be matriculated before the beginning of the session's classes, thus allowing them ample time to be assigned to classes and to be provided with laboratory equipment.

Students should be present on the opening day of classes. They will not be admitted after the first five class days. Freshmen must be present on the opening day of Freshman Orientation Week.

The University is not co-educational in all departments. Admission of women to the College of Arts and Sciences full-time courses is restricted to the courses in Medical Technology, Teacher Training, Journalism and Speech. Women will

not be admitted as candidates for the other degree programs in the College of Arts and Sciences. This restriction does not apply to Part-time Courses.

**Methods of Admission** *I. As a Regular Student*—Admission as a \*matriculated student to the College of Arts and Sciences may be obtained by one of the following methods: (1) by certificate or diploma of graduation from an approved high school; (2) by examination; (3) by transfer from another institution of higher education.

*Admission by Certificate*—Admission without examination is granted to students who have graduated with a minimum of fifteen acceptable units from any high school accredited by a recognized standardizing agency, or by the State Board of Education, or by the State University of the State in which the high school is situated. The application for admission must be accompanied by a certificate from the high school showing the quantity and quality of work accomplished by the applicant and giving information about his personality, character, and health.

Applicants who graduate from high school in the lower third of their classes and have the minimum units stated above will be admitted on probation for one semester, and their continuance in the College of Arts and Sciences will depend upon the quality of work accomplished during this first semester of their freshman year.

*Admission by Examination*—An applicant who is not entitled to enter by certificate, as stated above, may be admitted on the basis of entrance examinations in English and Mathematics and of a general intelligence test. These examinations are held in July and September. Applications for these examinations should be made to the Registrar of the University at least two weeks in advance.

*Admission to Advanced Standing*—Advanced standing will be given, at the discretion of the Committee on Admission and Classification, to an applicant who has fulfilled the high school requirements for admission and in addition presents a transcript of college credits certified by the proper official of the college or university attended showing all the scholastic

\*A matriculated student is one who has fulfilled all entrance requirements, paid all fees that are due, and is pursuing regular courses leading to a degree.

work done in that institution and in all other institutions of collegiate rank previously attended, and giving the student honorable dismissal. Credits presented from a non-accredited institution will be accepted rarely, at the discretion of the Committee on Admission and Classification, and only if the student has made satisfactory grades in his first semester's work at Loyola University College of Arts and Sciences. *No transfer student will be accepted unless he has attained a "C" average for all hours attempted during the preceding year at the college from which he transfers, has a general "C" average for all hours attempted previously in college, and no faculty action has been taken against him.* Credits presented for work done by correspondence will not be accepted.

*II. As a Special Student*—A limited number of mature persons who are not eligible for admission into the University by certificate may be admitted as special students under the following conditions: (1) they must be at least twenty-one years of age; (2) they must not have been in attendance in high school during the previous year; (3) they are to present all available certified credits of previous school work, together with formal application for admission as special students, stating the subject courses desired and the reasons for desiring those courses. When no certified credits can be presented, the applicant must furnish a detailed statement of all previous educational work and practical experience.

By virtue of his classification, a special student is not eligible for any degree nor is his college work accredited until he successfully completes entrance examinations. He may ultimately become a candidate for a degree by completing by entrance examinations the admission requirements of the department in which he wishes to register. Upon successful completion of entrance examinations, his previous college work is accredited.

Registration as a special student is for one semester only. Registration for a following semester will be refused if the student has not shown satisfactory earnestness and definiteness of purpose, or if his work has not been satisfactory in the preceding semester. No one may register in the University as a special student for more than two years.

*III. As an Out-of-Course Student*—A limited number of earnest students of mature years, who, though fully qualified

for admission to the College as regular students, do not wish to register as candidates for a degree, but merely want to pursue particular studies for cultural purposes, may be permitted to register as out-of-course students, provided they have obtained the recommendation of the Chairman of the Department in which they wish to register, and the written permission of the Dean. Such recommendation and permission will not be given to applicants who are not evidently qualified to pursue profitably the desired courses.

The credits earned by an out-of-course student may not be applied toward the fulfillment of requirements for a degree unless he changes his academic status to that of a regular student. Out-of-course students must make this change within the first four semesters if the credits are to be used towards an academic degree. At the beginning of each semester they must make written application to the Dean for the privilege of registering for that semester. This privilege will be granted only to those applicants who have shown, during the preceding semester, a satisfactory definiteness and earnestness of purpose.

**Admission** For admission to the College of Arts and  
**Requirements** Sciences at least fifteen acceptable high school units are required of which twelve must be in strictly academic courses. In general, these units should show several sequences of subject-matter adapted to the course to which admission is sought. Students in the lower third of the graduating class may be admitted on probation.

1. All students must present the following units.

	Units
*English .....	4
History, Civics .....	2
Algebra .....	1
Plane Geometry .....	1
**Latin or Modern Foreign Language .....	2
Science .....	1

---

\* One unit in English may be replaced by a unit in Speech or Journalism.

\*\* These units may be waived and supplied by scheduling Elementary Language Courses in College.

2. In general, only three units will be accepted from the following group.

	Units		Units
Bookkeeping .....	1	Economics .....	$\frac{1}{2}$ - 1
Commercial Law .....	$\frac{1}{2}$ - 1	Music .....	1
Commercial Geography .....	1	Shop Work .....	1
Drawing—Mechanical .....	1	Stenography .....	$\frac{1}{2}$
Drawing—Freehand .....	1	Typewriting .....	$\frac{1}{2}$

3. A student may not register for a subject course which presupposes specific high school preparation, unless he has completed such preparation. Any deficiency in such preparation will make it necessary for him to take those basic courses which the University judges advisable. Credit for that work may or may not be allowed, according to the circumstances of the case.

**Student Fees** Fees are paid in two installments during each semester of the scholastic year. During the Fall Semester, the first installment is due on the date of registration, the second on December 1st. During the Spring Semester, the first installment is due on the date of registration, the second on April 15th. *Any other arrangement for payment must be made before the completion of registration with the Treasurer of the University.*

The following are the fees in the College of Arts and Sciences:

**For full time students**

Tuition and basic fees (per semester).....	\$225.00
Matriculation fee .....	5.00
Late registration fee (per semester).....	5.00
Graduate Record Examination fee.....	15.00
Graduation fee .....	25.00
Cap and gown deposit (refundable).....	30.00
Observation and Practice Teaching fee.....	30.00
Conditional examination fee.....	2.00
Late examination fee.....	2.00
Transcript (after first).....	1.00
Locker rental (per semester).....	1.00
R. O. T. C. deposit.....	20.00

The basic fee includes registration, tuition, library, laboratory, subscription to the Maroon and Wolf, athletics, forum, physical education, and certain other student activities.

The matriculation fee is charged only at the time of a student's first registration in the College of Arts and Sciences.

The graduation fee and the Cap and Gown deposit are paid by Seniors one month before graduation. The full deposit will be refunded provided the cap and gown are returned in good condition immediately after graduation. If they are returned more than two months after graduation, only \$10.00 will be refunded.

The late examination fee will be charged for any examination taken later than the assigned date, no matter what the excuse. Except for sickness, no late examination will be given unless permission is obtained from the Dean prior to the regularly scheduled examination.

Students will be taxed for excessive breakage or destruction of University property. The decision covering each case will be made by the University.

Until a student's indebtedness is paid in full, no transcript of credits or record of his work will be released from the University.

### **For part time students**

The tuition fee for all part time courses is \$12.00 per semester hour, except for accredited teachers and members of a religious community.

For accredited teachers who are at present engaged in teaching, the tuition fee is \$9.00 per semester hour. The teacher's certificate accompanied by a statement of present employment should be presented to the Registrar for inspection at the time of registration.

For students who are members of a religious community, the charges are \$7.00 per semester hour.

All part time students in the College of Arts and Sciences are charged a registration fee of \$5.00 each semester. A matriculation fee of \$5.00 is charged when a student registers for the first time. Auditors do not pay a matriculation fee.

Additional part time fees are:

Library fee (per semester).....	\$ 5.00
Science laboratory fee (per semester).....	15.00
Observation and Practice Teaching fee.....	30.00
Conditional examination fee.....	2.00
Late examination fee.....	2.00
Transcript (after first).....	1.00
Late registration fee.....	5.00
Graduation fee .....	25.00
Cap and gown deposit (refundable).....	30.00

**Refund Policy** It is the sole duty of the individual, in case of official withdrawal from the College, to make formal application to the Finance Office for any refund of tuition. Refunds are determined, not according to the amount already paid by the student, but according to a percentage of the total tuition payable in the semester in which the student withdraws. Refunds are made on the following basis:

Within first week of semester.....	80%
One week to three weeks of semester.....	60%
Three weeks to five weeks of semester.....	40%
No refund after five weeks.	

No refunds are made when a student is suspended, dismissed for disciplinary reasons, or fails to pass in prescribed or elected courses.

Special consideration regarding refunds will be given to students either voluntarily entering the Armed Services or being drafted.

**Student Housing** Dormitory facilities are not available at the University. The University maintains, but does not supervise, a limited number of rooming houses for male students. Students may board and lodge only at rooming houses approved by the University authorities. Names and locations of such approved and inspected houses will be furnished by the Dean of Students. Meals may be obtained at the University cafeteria.

## ADMINISTRATIVE PROCEDURE

**Registration Procedure** Prior to registration a record of all previous work done in high school or college should be on file in the Office of the Registrar. Students registered for a degree in other approved institutions need not file entrance credentials unless they are applying to transfer to Loyola. Satisfactory proof, however, of good standing in those institutions should be presented together with a letter from their Dean approving the courses they intend to schedule.

Students must register within the prescribed time at the beginning of each semester before being permitted to advance in course. The following major steps are listed to assist registrants through the process:

1. Within the period designated for registration the registrants should report to the Registrar's Office to obtain registration cards.

2. Registrants should then obtain approval of their schedule of courses in consultation with their adviser and departmental chairman, fill out the registration cards, and deposit the registration data with their adviser or chairman.

3. The registration data will be submitted to the Dean by the respective departmental chairmen. This data will be checked and returned to the Registrar by the Dean.

4. On the date designated in each semester the registrant will call for the registration cards at the Registrar's Office.

5. To complete registration, the registrant must present the registration cards to the Finance Office and settle his account. Any student failing to settle his account with the Finance Office later than five days after the beginning of classes will not be admitted to any subsequent class.

**Instruction** The unit of instruction is one hour a week for one semester. Two hours of work in a laboratory are considered equivalent to one hour of class work. Students may receive credit only for the number of hours published for a course. No credit will be allowed for a course for which a student is not registered as a regular student.

A student is required to take a minimum of twelve semester hours of work each semester. Attendance as auditors is not granted without written permission of the Dean.

**Withdrawal** A student who withdraws from the University during a semester before taking the final examinations of the semester forfeits all credit for work done in that semester.

To obtain his honorable dismissal on withdrawing from the University, the student must obtain from the Dean a written permission for such withdrawal, which must be presented to the Registrar. This written permission will not be given if the student has not met all financial obligations to the University, or if he is under any official censure, or if there is any official charge pending against him.

Should a student fail to comply with these regulations, a notation of faculty action against the student will be inscribed on his official record.

A student desiring to withdraw from a scheduled course or to add another course after his semester's schedule has been filed in the Registrar's office may do so only after having obtained written permission from the Dean. Permission to add a course or to change from one section of a course to another will not be granted after the date indicated in the Session Calendar as the last day for schedule adjustments.

**Official withdrawal from a course will not be allowed later than one month after the beginning of classes.**

In the case of a student who is called to active duty in any branch of the armed services before the date for final examinations in the semester, the following exceptions to the normal regulations have been made:

1. Should a second semester senior be called to military service within six weeks of the date of commencement exercises, he will have the dates of his final examinations advanced, and, if he passes successfully, he will be granted full credit and his degree.
2. A senior in his first semester, or a junior, sophomore, or freshman in either semester who is called into military service within four weeks of the end of the semester will have his examination dates advanced, and, if he passes successfully, be granted full credit for the semester.

3. Any student who has completed his mid-semester requirements but who is not eligible for full credit as stated above will be granted one-half of the credits for the courses in which he has successfully completed his mid-semester examinations.
4. A notation of the action taken by the University in accordance with the provisions made above will be made on the records and transcripts of the students who have received full credit under these provisions.

**Attendance** The University is insistent on regular and punctual attendance. Each tardiness, defined as a student's failure to be present when his name is called at the beginning of each class or laboratory, will be counted as a third of an absence.

The student coming late is responsible for seeing that the instructor changes the absence noted at the beginning of the class to a tardiness.

Any student incurring more than six absences in a course which carries three or more semester hours will be dropped from the course automatically. In courses of less than three semester hours the maximum number of absences will be double the number of semester hours, e.g. in a two semester hour course, four absences will be the maximum allowed; in a one semester hour course, two absences will be the maximum.

Students who have exceeded the maximum number of absences will have a right to petition the Committee on Attendance for reinstatement.

Students petitioning reinstatement should do so within twenty-four hours after they receive notification that they have been dropped from a course. The petition must be submitted by letter to the Dean of Students and must include the reason for each absence, giving dates, etc. While the petition is being reviewed by the Committee on Attendance the student will be permitted to attend classes. The decision of the Committee on Attendance will be final. Extended absences due to sickness must be verified by a doctor's certificate.

Students entering class more than five minutes after the starting bell will be recorded absent.

Absences for any excuse whatever do not exempt a student from quizzes, tests, examinations, or other written work required during the period of absence. The responsibility for making up such work rests wholly upon the student. A failing grade for

the omitted work will be charged against the student if he does not fulfill his obligations within the time limit determined by his professors.

**Discipline** The educational system of this University includes, as one of its most important features, the formation of character. It is expected that each student will be so loyal to the spirit and ideals of the University that the exercise of proper self-control will come from his own convictions and free determination.

It is intended that the college regulations be a guide and help to foster that gentlemanly conduct which is presupposed in every Loyola student. The College requires regular and punctual attendance at all scheduled exercises, observance of college customs and regulations, serious application to study, and exemplary demeanor in all college activities. A student who shows himself deficient in these essential points will be suspended or dismissed.

The University reserves the right to dismiss at any time a student who fails to give satisfactory evidence of earnestness of purpose and of interest in the serious work of college life. In rare cases a student may be dismissed for a reason that seems to students and parents to be insufficient. In such cases the University is to be considered the more capable judge of what affects the interests both of the institution and of the student body.

**Grades and Reports** A report of the semester grades made by a student in his scheduled subjects is sent to the student at the middle and end of each semester. Other reports will be sent by the Dean whenever he judges it advisable to do so.

Grades are reported as follows: "A," excellent; "B," very good; "C," good; "D," merely passing; "E," conditioned; "F," failed; "FE," failure because of excessive absences; "W," withdrawal from subject course with permission; "WF," failure because of withdrawal from subject course without permission.

At the student's option and with the professor's permission, in certain two-semester courses a grade of 'I,' incomplete, may replace the 'E,' conditioned, grade at the end of the first semester. If the student does satisfactory work in the first half of the second semester, the 'I,' will be converted to a 'D'

for the first semester. If not, the student will be given an 'F' for the first semester and will be asked to withdraw from the course.

Semester grades are determined as follows:

Pre-examination work in first half of semester.....	20%
Mid-Semester Examination .....	20%
Pre-examination work in second half of semester .....	20%
Final Examination .....	40%

Official grades are expressed in letters, not numbers. The numerical values of the letters used are as follows: A—93 to 100; B—85 to 92; C—77 to 84; D—70 to 76; E—60 to 69; F—0 to 59.

**Scholastic Standing** The standing of a student is computed on all hours attempted, including elementary languages, but excluding authorized withdrawals. All attempts at a course which has been failed and repeated or which has been repeated to raise the quality of work will be counted in computing a student's scholastic standing.

**Quality Of Work** A candidate for a degree must present not only the required character and quantity of work, but he must attain a certain standard of excellence in his work, especially in his major and minor areas of concentration. Hence, the candidate for a bachelor's degree must earn, in addition to the minimum of 128 semester hours of credit, an average grade of "C" or better. Moreover, a student must make a "C" average in each area of his field of concentration and a "C" average in upper division courses contained in each area.

**Quality Point Rating** No student will be permitted to graduate unless he has established a quality point average of 1.0 in his work towards the desired degree.

**N.B.** The quality point average is determined by dividing the total of quality points earned by the total hours attempted exclusive of failures.

Quality points are earned in the following manner: For the grade of "A" in a subject course, the student is credited with three times as many quality points as semester hours allowed for that course; for the grade of "B," twice as many

quality points as semester hours; for the grade of "C," just as many quality points as semester hours; for the grade of "D," semester hours are credited, but not quality points; for the grade of "F," a number of quality points equal to the number of semester hours assigned to the course will be subtracted from the student's total of quality points.

With the special permission of the Dean, a student may repeat a course already successfully completed with a grade of "C" or "D" in order to better the quality of his work. No third attempt will be allowed. Courses in which a grade of "B" has been earned may not be repeated. In computing the student's general average and quality point average in the major field, all attempts will be counted. In computing the quality point average in the minor fields, only the higher grade will be counted in the case of courses which have been repeated.

**Scholastic Probation and Dismissal** 1. Students admitted from the lower third of their class in high school will be placed on probation for one semester, and their continuance in the College of Arts and Sciences will depend upon the quality of work accomplished during this first semester of their freshman year.

2. In order that students maintain the required academic standing and continue in course, the following minimum standards must be met:

- a) a quality point average of 0.5 for the first semester
- b) a quality point average of 0.7 for the second semester
- c) a quality point average of 1.0 after the third semester and every subsequent semester.

Students failing to meet these specified requirements will be placed on probation for one semester. If a student is unable to raise his quality point average to the required minimum after one semester of probation, he will be subject to dismissal from the College.

**Only rarely and for very grave reasons will the probation of a student be extended beyond one semester.**

3. Students who have not established a 1.0 general average and a 1.0 average in their major and minor fields of concentration at the end of their sophomore year must remedy their

deficiencies before beginning their upper division major or minor work.

4. Students on scholastic probation will schedule no more than 16 and no less than 12 semester hours.

**Repetition of Courses** A student who has failed a course will be allowed to repeat that course when it is next offered. No more than two repetitions of the same course will be allowed to any student.

**Classification of Students** Those students are ranked as Sophomores who have credit for twenty-four semester hours; Juniors, those who have fifty-six semester hours; Seniors, those who have ninety-two semester hours. Students not included in any of these classifications are registered either as special students or as out-of-course students.

**Requirements for Undergraduate Degrees** 1. *Semester Hours and Field of Concentration*—To receive a baccalaureate degree, a student is required to complete at least 128 semester hours, distributed normally throughout eight semesters in such manner as to include in his last four semesters a field of concentration consisting of 30 to 36 semester hours of upper division work in related courses, 18 of which must be taken from one field and 12 from one or more related fields.

Before the end of his Sophomore year, the student, with the assistance of the Chairman of the Departments, will select his field of concentration. No student will be permitted to begin his field of concentration unless he has the rating of a Junior, has completed his lower division course requirements, has an average of "C" for all courses completed and has an average of "C" in the lower division subject courses of the major and minor fields he intends to elect. The field, as outlined by the Chairman, must be submitted in duplicate form to the Dean for his approval. After such approval, any change in the student's field of concentration is not allowed without permission of the Dean. Ordinarily such a change will prolong the time required for a degree. Students who have transferred from another college must complete their last 32 hours and 50 per cent of their field of concentration in residence.

Students who wish to schedule courses at other colleges and have such courses recognized as partial fulfillment of their

Degree Program at Loyola must obtain the written permission of the Dean before such courses are scheduled.

Failure to obtain such written permission will render the courses unacceptable to Loyola. Courses in which a grade of "D" is earned will not be accepted as transfer credit.

## II. Distribution of Course Requirements in Degree Programs

Theology.....	16	16	16	16	16	16

\*Candidates for the A.B. Degree may elect Greek or Social Sciences.

It is to be noted that Table II indicates the minimum course and credit requirements. At least 18 semester hours in the major field of concentration and 12 semester hours in the minor field must be added to these minimum course requirements in lower division work.

**Science** The following are specific lower division requirements in the major fields of concentration:

1. Major field in Physics and Mathematics:  
Physics 10 hours; Chemistry 8 hours; Mathematics 10 hours.
2. Major field in Chemistry:  
Chemistry 16 hours; Physics 10 hours; Mathematics 10 hours.
3. Major field in Biology:  
Biology 16 hours; Chemistry 16 hours; Mathematics 6 hours.
4. Major Field in Medical Technology:  
Medical Technology 16 hours; Biology 16 hours; Chemistry 12 hours.

**Theology Requirements** Non-Catholics are not required to fulfill the theology requirements. Transfer and part-time students must establish a minimum of 8 semester hours.

**Eligibility for Graduation** In addition to the above requirements, the following regulations must be observed:

(1)—The candidate for a degree must either submit a thesis of approximately 5,000 words on a particular phase of his major subject, or must take a comprehensive examination in his major subject, depending upon the regulations of the department of his field of concentration.

(2)—A. Before writing his thesis the student must obtain from the Chairman of the department of his field of concentration the approval of the subject of his thesis. He must present to his Chairman two copies of the completed thesis not later than the date assigned in the Session Calendar. The Chairman's approval of the thesis is required for graduation.

B. If the student is to take a comprehensive examination, the field of examination is to be determined by the Chairman of the Department of his major subject. The successful completion of this examination is required for the graduation of the student.

(3) At the beginning of the scholastic year in which the candidate expects to complete the work required for his degree he must present to the Registrar a formal application for that degree.

(4) One month before the date of graduation, the candidate must pay his graduation fee and discharge all other financial indebtedness to the University.

(5) All candidates for degrees must be present at the Award Night Ceremonies, at the Baccalaureate Services and the Commencement Exercises. Absence from any one of these exercises will render the candidate ineligible for Graduation. The University will not confer degrees *in absentia*.

**Combined Degrees** A student who has completed the Junior year in the College of Arts and Sciences may enter upon his professional studies and after one year of such studies may receive a degree from the College of Arts and Sciences, provided he has fulfilled the following requirements: (1) Before transferring to the professional studies he must have

completed all the courses of the College of Arts and Sciences specifically required for the academic degree and must file a formal application for the degree in the Office of the Registrar; (2) he must have been registered during the entire year as a Senior in the College of Arts and Sciences and as a First Year student or Freshman in the professional school in which he is taking his professional studies, and his program of first year studies in the professional school must have been approved at the beginning of the session by the Dean of the College of Arts and Sciences; (3) he must have completed successfully the first year of his professional studies as required by the professional school for his promotion to the second year of professional studies in that school, although not more than twenty-two semester hours of such studies will be accepted toward his academic degree; (4) he must not be under any official censure either in the College of Arts and Sciences or in the professional school; (5) he must see that an official record of the studies which he has taken and the grades he has made in them during the first year of professional studies, together with a statement that he has been promoted to the second year of professional studies and that he is not under any official censure in the professional school, be sent by the Dean of the professional school to the Dean of the College of Arts and Sciences. Combined degrees will not be granted after a student has begun his second year in the professional school.

Such a candidate for a degree from the College of Arts and Sciences must be present with the other candidates for degrees at the Award Night Ceremonies, the Baccalaureate Services, and the Commencement Exercises of the University.

Absence from any one of these services will render the candidate ineligible for graduation. The University will not confer degrees *in absentia*.

**Graduation** Graduation honors are computed according to the quality point system. A student's graduation average is determined by dividing the total number of quality points earned by the total number of semester hours attempted by the student during his entire course. Semester hours carried include all hours attempted, excluding authorized withdrawals, but including all attempts at a course which has been repeated

in order to raise the total of quality points. A student who has made an average of 2.5 graduates *cum laude*; one who has made an average of 2.7 *magna cum laude*; one who has made an average of 2.9 *summa cum laude*. Record of these honors is inscribed on the diplomas and noted in the list of graduates published for the Commencement Exercises.

**Knowledge of Regulations** Every student is to acquaint himself with all the regulations of the University that pertain to him. Ignorance of a regulation is not accepted as an excuse for its violation. These regulations are to be learned from the General Bulletin of the University, the Students' Handbook, official instructions given to the students, and posted official notices. When a student registers in the University, it is understood that both the student and the student's parents or guardians agree to the student being governed by the regulations of the University, and will abide by decisions that may be made by officials of the University regarding the student.

**Nursing Education**

Students in training at the Hotel Dieu School of Nursing and Mercy Hospital are provided purchase-of-course instruction at the College. These students are duly registered in the College and subject to all regulations governing the admission and matriculation of students of the College of Arts and Sciences. Student nurses must attend regularly scheduled courses on the college campus. The College of Arts and Sciences does not grant a degree in Nursing Education, although credit in the purchase-of-course instruction is transferable and applicable to a collegiate degree.

**Bachelor of Science—Physics**

Note: The Department of Physics offers two degree programs:

1) The program leading to the degree of **B.S.** with a major in Physics. For this program 36 semester hours in Physics courses must be attained. Towards these 36 semester hours, the following courses are obligatory: Ph. 211 through 214; Ph. 301 through 304; Ph. 307-9. The other 10 semester hours may be acquired by a choice from the following offerings: Ph. 311-12; Ph. 315-16; Ph. 331-33; Ph. 335 through 338.

2) An honors program leading to the degree of **B.S.-Physics**. Any major in Physics, who at the completion of the first semester of his Junior year has a quality point ratio of 1.5 or better in his physics courses so far attempted, is entitled to apply for this program and may be admitted to it by the Department. The minimum requirement for graduation with the degree **B.S.-Physics** is 51 semester hours in Physics of which the courses listed above in Program (1) are also obligatory, the remaining semester hours (25) to be attained by selecting from the other offerings of the Department. In addition, the aspirants for the degree **B.S.-Physics** will be required to submit to the Department one advanced report on a specific project which they have undertaken with the advice of the Department.

## INTRODUCTORY ENGINEERING

The Engineering curriculum has been designed to fulfill the major portion of the Freshman and Sophomore requirements of standard engineering programs.

At the same time the student has the advantage of procuring several invaluable liberal and cultural courses so necessary for the complete education of one who expects to meet squarely the social problems of our times.

### Bachelor of Science—Education (Secondary Education)

The courses listed are designed to assist the student to prepare to teach one or more of the following subjects at the secondary-school level: English, Speech, Journalism, Foreign Languages, Social Studies, Science (Biology, Chemistry, General Science, Physics), Mathematics, and Business Education. There are special curricula for Elementary Education, Physical Education, and School Music.

\*Students preparing to teach Physics or Mathematics also take Mt. 203.

†A total of 12 semester hours is required of all students, including at least 3 semester hours in biological science and at least 3 semester hours in physical science (Physics or Chemistry). The remaining 6 semester hours may be distributed as the student elects in either biological or physical science. These requirements may be met with Bl. 101, Bl. 104, Bl. 105, Bl. 106, Ch. 101-2, Ph. 201-4, Bl. 103, Ch. 103, Ph. 103. Ch. 101-2 and Ph. 201-4 must be completed to the full 8 semester hours. Bl. 103, Ch. 103 and Ph. 103 do not meet the requirements for teaching science.

‡Students preparing to teach Social Studies take Hs. 101-2. Those preparing to teach sciences, take Chemistry 101-2. A student preparing to teach any science must have at least 6 semester hours in each of the following sciences: Biology, Chemistry, and Physics. Students preparing to teach a foreign language take 6 semester hours in the foreign language. Students preparing to teach Business Education, take Commerce 101-2, and Finance 101-2; these must also possess advanced standing in typewriting (6 semester hours) and in shorthand (9 semester hours) for certification to teach Business Education. Typewriting and shorthand do not count in the program toward the degree.

\*Field of Concentration includes 18 semester hours of upper division work in Education, and 12 semester hours of upper division work in the teaching area. The student should endeavor to include in his program at least one additional teaching field. The adviser must be consulted concerning specific certification requirements. In general, these are: English, 24 semester hours; Speech, 18 semester hours; Journalism, 12 semester hours; Foreign Language, 24 semester hours for the first field of specialization and 18 semester hours for the second foreign language; Social Studies, 24 semester hours; Science, 24 semester hours, including Bl. 101-4, Ch. 101-2, Ph. 201-4, plus 4 additional semester hours in the science to be taught; Business Education, 36 semester hours including typewriting, 6 semester hours, shorthand, 9 semester hours, and related courses in business and economics, 12 semester hours. If the student is preparing for certification in two fields, the 12 semester hours of upper division work in the teaching area may be divided between these two fields.

\*This flexible program will provide the thorough training in the fundamental sciences so necessary in modern medicine. After the Junior Year, the student will be eligible to apply for entry into Medical School, and will have completed the requirements for the Combined Degree—B.S.—Major in Chemistry. As a four-year program, it offers a training in Chemistry, which although it does not meet the full professional requirements, will nevertheless qualify him for chemical employment in industry. If, by the Sophomore Year, the student demonstrates an aptitude for the more mathematical aspects of Chemistry, slight modification of his program will leave him still in course for the full professional training in Chemistry.

\* A.B. Program Requirement

† Ph.B. Program Requirement

## **DEPARTMENT OF MILITARY SCIENCE AND TACTICS RESERVE OFFICERS TRAINING CORPS**

The Department of the Army maintains a Corps of Military Police Unit at Loyola. However, a student may receive a Reserve Commission in his Professional Major.

### **Requirements**

All physically fit male students of the College of Arts and Sciences, except veterans, are required by the institution to participate in two years of Military Training, normally during their first two years. Physical fitness is determined by examination without additional expense to the student. Those who fail to take the physical examination at the proper time or who have late registrations will be charged a nominal fee (approximately \$2.00).

### **Senior ROTC Program**

The Senior ROTC program consists of two parts: (1) Basic Course and (2) Advanced Course, including a summer camp.

(1) **Basic Course.** The Basic Course consists of formal instruction for a minimum of three hours per week for two academic years of at least 30 weeks each. The Department of the Army allows the Professor of Military Science and Tactics, at his discretion, to allow up to two years credit in the basic course for previous honorable active service in the Armed Forces. Veterans of World War II who have had six to twelve months service may be given one year of credit in the basic course and veterans who have had over twelve months service may be given two years of credit in the basic course.

(2) **Advanced Course.** The Advanced Course consists of military instruction, principally of a specialized type applicable to the service concerned, for a minimum of five hours per week for two academic years of at least 30 weeks each. Entrance to the Advanced ROTC Course is limited to those students taking an academic course on the college level, who have completed the basic course or received credit for prior service as prescribed above. The course is of a specialized branch type, designed to qualify selected students for reserve commission in the Corps of Military Police.

### **Summer Camp**

Members of the Advanced Course are required to attend camp one summer, normally between the first and second year. All students going to camp receive mileage for the round trip from school at the rate of 5c per mile and are housed, uniformed and given medical attention at government expense while at the camp. The duration of camp is six weeks and begins about the middle of June.

The military training will consist of practical and theoretical instruction of a specialized branch type. In addition to this training, the student has an opportunity to participate in healthy outdoor sports of all kinds and in competition with young men from other colleges. All students attending camp should take with them athletic shorts, tennis shoes and swimming suit. A well planned religious program is conducted at the camp by experienced chaplains.

### **Distinguished Military Student**

Military Students who have completed the First Year Advanced Course are considered for selection. A Distinguished Military Student is an individual designated as such after careful consideration of his qualifications by the President of the University and the PMS&T. He must possess outstanding qualities of leadership, high moral character, a definite aptitude for the military service, and he must have demonstrated his leadership ability through his accomplishments while participating in recognized campus activities. Also, he must have sufficient standing in both military and academic subjects.

### **Distinguished Military Graduates**

Those graduates who have completed the entire ROTC Course and who have been selected by the President of Loyola University for scholastic excellence, may be designated as "Distinguished Military Graduates" by the Professor of Military Science and Tactics, as possessing outstanding qualities of leadership, character and aptitude for Military Service. Such "Distinguished Military Graduates" are considered in selection of applicants for appointment in the Regular Army.

### **National Society of Pershing Rifles**

The Pershing Rifles is a National Honorary Military Society. Its aim is to encourage, preserve, and develop the highest ideals of the military profession, to promote American citizenship, to create a closer and more efficient relation, and to provide

appropriate recognition of a high degree of military ability among the cadets of the Senior Reserve Officers' Training Corps. Any student in good standing enrolled in ROTC is eligible for membership.

### **The Provost Corps**

The Provost Corps is a National Honorary Military Society of Military Police Corps ROTC cadets. Its purpose is to recognize and honor outstanding cadets of the Military Police Corps, to inspire Military Police officers with a just pride in their duty, and to aid society through the application of accepted scientific practices and techniques in military police problems. The members are selected from cadets in the advanced course of the MPC ROTC with a scholastic minimum of 2.0 military average and a 1.0 all college average.

### **Enrollment and Continuance**

The general requirements for enrollment and continuance in the ROTC are that the student be a citizen of the United States, physically qualified as prescribed by the Department of the Army, accepted by the institution as a regularly enrolled student, be not less than 14 years of age and must not have reached 23 years of age at time of enrollment (except for veterans of World War II, who must successfully complete such general survey or screening tests as will be given to determine eligibility for admittance to Basic and Advanced Course) and agree in writing upon admission to the Advanced ROTC Course (1) to complete the course of instruction offered unless released by the Department of the Army, and (2) accept a Reserve Commission if tendered. Should a student fail to continue the prescribed course while at Loyola University, he may be requested to refund to the government any sums previously paid.

### **Academic Credit**

Academic Credit is granted for the completion of the Military Course on the basis indicated below:

	1st Semester	2nd Semester	Total Credit Hours
Basic 1st Year	2	2	4
Basic 2nd Year	2	2	4
Advanced 1st Year	3	3	6
Advanced 2nd Year	3	3	6

### **Emoluments**

Advanced ROTC Course Students will be paid a monetary allowance at a daily rate equal to the value of the commuted ration which at present is 90c per day. Students attending ROTC Summer Camps will be paid at the rate prescribed for soldiers of the first pay grade of the Regular Army.

Members of the Advanced Course are not in the Active Service. ROTC subsistence allowance is paid to veterans who are enrolled in the Advanced Course in addition to subsistence allowance under Section 400(b) Servicemen's Readjustment Act of 1944. Similar benefits, such as those derived from service incurred disability, are authorized to veterans enrolled in the Advanced Course, who are also drawing ROTC subsistence allowance. This means that a member of the Advanced Course ROTC, who is drawing disability compensation for a service incurred disability, is not required to waive such compensation. He must be physically re-examined for enrollment in the ROTC. Temporary defects may be waived by the Commanding General, Fourth Army. However, physical defects of such a nature that they are likely to exist at the time of graduation from ROTC and which may not be waived for appointment in ORC, will not be waived for enrollment or continuance in the ROTC.

### **Uniforms**

All ROTC Students are required to deposit \$20.00 with the Treasurer of the University prior to enrollment in the Basic and Advanced Courses. The student will then secure the prescribed uniforms and insignia, which are loaned to the student by the Government, from the ROTC supply house. Any necessary repair or replacements of articles or uniforms must be made by the student. The uniform deposit will be returned to the student upon the completion of or withdrawal from the Course. Final settlement will be made by the Treasurer's Office. Students will not wear a combination of military and civilian clothing. Uniforms will be worn only on drill days.

### **Texts and Equipment**

The Government will provide the necessary texts and equipment to carry out the ROTC Program on a loan basis to the student.

### Rifle Team

A rifle team chosen through individual competition will be selected to represent the ROTC in Hearst Matches and in matches with other colleges and universities. The firing is conducted with modern small bore rifles on an indoor range.

### The Basic Course

Military Instruction is of a general type applicable to the Army as a whole, and is for the purpose of providing the student with a foundation of basic military knowledge for future officers.

## DEPARTMENTS OF INSTRUCTION

The courses of instruction in all departments of the College of Arts and Sciences are numbered in accordance with the following plan:

Lower division courses, numbered from 100 to 299, are, in general, introductory, and basic.

Upper division courses are numbered from 300 to 399. For these courses, basic training in the same or in allied subjects is a prerequisite.

Graduate courses are numbered from 400 to 499.

The college credit allowed for a course is stated in terms of semester hours.

The following is a list of the key letters used to indicate the different courses of instruction:

## DEPARTMENT OF BIOLOGY

John G. Arnold, Jr., Ph.D., Chairman

**Bl. 101 General Botany** A course designed to acquaint the student with the biology of the plant kingdom. Fundamental principles, including the morphology and physiology of the cell, are first considered. A study is then made of the morphology, relationships, and life histories of representative examples of the major plant groups. Genetics and the economic importance of plants are considered briefly. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

**Bl. 102 Plant Taxonomy** A course of study in the methods of plant identification embracing only the classification of the seed plants. This course is especially designed to make the student familiar with the local flora. The genetic relationship of the major families are investigated, and a large number of representative plants are collected in the field. The main vegetation types of Louisiana and North America are also considered. Two lectures and two laboratory periods. Prerequisite: Bl. 101. Spring. 4 sem. hrs.

**Bl. 104 General Zoology** A continuation of the Course Bl. 101. A comprehensive study is made of typical invertebrate and vertebrate animals. Cell division, embryology, and heredity are also considered. Two lectures and two laboratory periods. Spring. 4 sem. hrs.

**Bl. 105 Invertebrate Zoology** A study of the underlying principles of animal life. The taxonomy, morphology, physiology, life history, habits, and distribution of the Invertebrata are considered. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

**Bl. 106 Vertebrate Zoology** A study of taxonomy, morphology, physiology, life history, habits, and distribution of vertebrate animals. Reference is made to the lower chordate animals. Embryology, genetics and ecology are considered briefly. Two lectures and two laboratory periods. Prerequisite: Bl. 105. Spring. 4 sem. hrs.

**Bl. 107-8 General Biology** An intensive study of the fundamental properties of living things, their structure, functions, classification, life histories, and evolution. This course is required for all pre-medical and pre-dental students and biology majors. Two lectures and two laboratory periods. Fall and Spring. 8 sem. hrs.

**Bl. 109 SN Anatomy and Physiology** An intensive lecture and laboratory study of anatomy and physiology. Special emphasis is laid on the mamallian type in order better to understand human anatomy and physiology. Two lectures and two laboratory periods. Fall. 4 sem. hrs.

**Bl. 122 SN Microbiology** This course embraces bacteriological technique, the classification and study of the properties of important non-pathogenic and pathogenic bacteria. The principles of immunity and serology, and a brief survey of filtrable viruses are also considered. Special emphasis is laid upon the mammalian type better to understand bacteriology affecting the human. Two lectures and two laboratory periods. Spring. 4 sem. hrs.

**Bl. 201 Comparative Anatomy of the Vertebrates** An intensive laboratory study of type vertebrates, accompanied by lectures on vertebrate phylogeny and anatomy. Two lectures and two laboratory periods. Prerequisite: Bl. 101-104 or Bl. 105-106. Fall. 4 sem. hrs.

**Bl. 202 General Embryology** A study of the origin and maturation of germ cells, fertilization, and the formation of germ layers in certain typical invertebrate and vertebrate animals. Knowledge of the development of the system of a vertebrate is obtained through an intensive study of whole mounts and serial sections of the chick and pig. Two lectures and two laboratory periods. Prerequisite: Bl. 201. Spring. 4 sem. hrs.

**Bl. 206-7 Anatomy, Physiology and Kineseology** An intensive demonstration lecture course designed to give the student of Physical Education thorough and practical knowledge of these basic sciences. Fall and Spring. 6 sem. hrs.

**Bl. 301 Bacteriology** This course embraces bacteriological technique, the classification and the study of the properties of important non-pathogenic and pathogenic bacteria. The principles of immunity and serology, and a brief survey of filtrable viruses are also considered. Two lectures and two laboratory periods. Prerequisite: Bl. 105-106 or equivalent. Fall. 4 sem. hrs.

**Bl. 302 General Histology** The study of the microscopic structure of tissues and organs of the mamallian body, and the study of the fundamentals of hematology. Two lectures and two laboratory periods. Prerequisite: Bl. 201. Spring.

4 sem. hrs.

**Bl. 303 General Physiology** The study of the normal function of tissue and organs of animal forms. Special emphasis is laid on the mammalian type in order better to understand human physiology. Three lectures and one laboratory period. Prerequisite: Bl. 201. Fall and Spring.

4 sem. hrs.

**Bl. 305 Animal Parasitology** A study of parasites in relation to disease. The various types of parasites, their life histories, and the conditions which they cause will be considered. Two lectures and two laboratory periods. Fall.

4 sem. hrs.

**Bl. 306 Animal Microtechnique** A course in the principles and methods of preparing animal material for microscopical study. The student is given practice in fixing, embedding, sectioning, staining, and mounting tissues; the preparation of whole mounts. One lecture or conference, and at least three laboratory periods a week. Prerequisite: Bl. 302. Spring

4 sem. hrs.

**Bl. 311 Limnology** Physical, chemical, and biological factors determining biological productivity and associated phenomena in inland waters. Experience in use of methods and instruments for environmental analysis. Intensive field studies on local lakes and streams. Two lectures and six hours of laboratory or field work per week. Fall.

5 sem. hrs.

**Bl. 312 Field Zoology** The taxonomy, life histories and general ecological relationships of the common animals (exclusive of the terrestrial insects, the birds, and the mammals) of south Louisiana and the New Orleans area particularly. Two hours lecture and six hours laboratory or field work per week. Prerequisite: Bl. 101-104 or Bl. 105-106. Spring.

5 sem. hrs.

**Bl. 313 Micrology** A course designed to acquaint the student with the methods employed in the preservation of plant materials and the preparation of such materials for microscopic study. The student will be given practical experience in the preparation of stained sections of selected plant specimens. Two lectures and two laboratory periods. Fall.

4 sem. hrs.

**Bl. 314 Genetics** A course designed to give the student a knowledge of the basic laws governing heredity. The function of the Chromosomes and their associated genes, the determination of sex, linkage, crossing over, mutation and selection will be discussed. Basic principles will be demonstrated in the laboratory. Two lectures and two laboratory periods. Spring. 4 sem. hrs.

### DEPARTMENT OF MEDICAL TECHNOLOGY

John G. Arnold, Jr., Ph.D., Chairman

**Md. 101 Urinalysis** A course designed to instruct the student in the ethics of the profession, the care and use of laboratory equipment and the principles and practice of urinalysis. Fall. 4 sem. hrs.

**Md. 102 Gastric and Fecal Analysis** A study of the principles and practice of gastric analysis, fecal analysis and liver function tests. Spring. 4 sem. hrs.

**Md. 201 Anatomy and Physiology** This course includes the study of the fundamentals of anatomy and physiology, and studies of electrocardiography and basal metabolism. Fall. 4 sem. hrs.

**Md. 202 Hematology** A thorough study of the morphology of blood and blood forming tissues with extensive laboratory work. Spring. 4 sem. hrs.

**Md. 301 Serology and Immunology** An intensive study of the theory and practice of serological and immunological reactions. Fall. 4 sem. hrs.

**Md. 302 Medical Bacteriology and Mycology** A study of the morphology and cultural reactions of the bacteria, fungi and yeasts encountered in the clinical laboratory. Spring. 4 sem. hrs.

**Md. 390-391 Hospital Internship** This course is a practical application of principles of Medical Technology which have been covered in the preceding courses in the Department. This course is of one calendar year duration beginning at the end of the Junior Year. It is taught in various local hospitals or private laboratories which have been approved by the American Medical Association and the American Society of Clinical Pathologists. Practical laboratory internship experience is allowed for this course. Fall and Spring. 16 sem. hrs.

## DEPARTMENT OF CHEMISTRY

Rev. George A. Francis, S.J., Ph.D., Chairman

**Ch. 101-2SN Chemistry for Nurses** Designed for students taking nurses training course in hospitals. This course covers the necessary fundamentals in inorganic, organic and biological chemistry. Fall and Spring. 8 sem. hrs.

**Ch. 101-102 General Inorganic** Fundamental principles of chemistry; the laws of chemical action and description of the non-metallic and metallic elements and their compounds. Two lectures, one recitation, and two laboratory periods. Fall and Spring. 8 sem. hrs.

**Ch. 103 General Inorganic** A lecture demonstration course in the essentials of chemistry for majors in Education. This course does not fulfill the requirements for any other degree program. Fall. 4 sem. hrs.

**Ch. 201-202 Organic Chemistry** Discussion of the important compounds of aliphatic and aromatic series and preparation of typical compounds. Two lectures and two laboratory periods. Prerequisite: Ch. 101-2. Fall and Spring. 8 sem. hrs.

**Ch. 203 Inorganic Quantitative Analysis for Medical Technology Majors** Volumetric and colorimetric analysis including acidimetry and alkalimetry, redox, precipitation methods including adsorption indicators, and photometry. Prerequisite: Ch. 101-2. Spring. 4 sem. hrs.

**Ch. 301 Semimicro Inorganic Qualitative Analysis** Detection of the common cations and anions, based on the application of chemical equilibrium as well as spot test procedures. Two lectures and three laboratory periods. Prerequisite: Ch. 101-2. Fall. 4 sem. hrs.

**Ch. 302 Inorganic Quantitative Analysis** Volumetric and gravimetric analysis including acidimetry and alkalimetry, redox methods, the use of adsorption indicators and iodimetry. Descriptive information is included on colorimetry, and electrochemical methods of analysis. Ionic strength and activity concepts are used throughout. Two lectures and three laboratory periods. Prerequisite: Ch. 301. Spring. 4 sem. hrs.

**Ch. 303-304 Physical Chemistry** A general survey of the subject. The course treats of the gaseous, liquid and solid states of matter, thermodynamics, the laws of solutions, chemical and physical equilibria, chemical kinetics, electrochemistry, colloids. Three lectures and two laboratory periods. Prerequisites: Ch. 302, Ph. 211-214, Mt. 302 Fall and Spring. 8 sem. hrs.

**Ch. 305-306 Advanced Analytical Chemistry** Two lectures and three laboratory periods. Prerequisites: Ch. 201-2, 301-2, 303-4.

I. **Advanced Inorganic Quantitative Analysis and Instrumentation.** The use of organic precipitants in inorganic analysis, electrodepositions of metals, optical methods of analysis, including spectrophotometry, and polarography.

II. **Industrial Chemistry and Technical Methods of Analysis.** The course deals with the production and analysis of petroleum products, animal and vegetable oils and fats, sugar, water for municipalities and for industrial uses, soap, etc. Fall. 4 sem. hrs.

**Ch. 307-308 Advanced Physical Chemistry** Two lectures and three laboratory periods. Prerequisites: Ch. 201-2, 301-2, 303-4.

I. The theory and practice of counter-current separations.

II. Selected topics in colloids, solutions, kinetics and quantum chemistry. Spring. 4 sem. hrs.

**Ch. 309-310 Biological Chemistry** A study of the chemical constituents of the body. The chemistry and functions of the carbohydrates, fats, proteins, vitamins, and mineral elements of foods. Two lectures and four hours of laboratory. No credit will be allowed unless both courses are satisfactorily completed. Prerequisite: Ch. 201-2, 302. Fall and Spring. 8 sem. hrs.

**Ch. 311 Identification of Organic Compounds** A review of the methods of qualitative organic analysis of pure organic compounds, and of the separation and identification of components of mixtures. One lecture and three laboratory periods. Prerequisite: Ch. 301-2 and Ch. 313-14 or Ch. 301-2 and Ch. 201-2 with permissions of instructor. Fall. 3 sem. hrs.

**Ch. 312 Organic Preparations** A course designed to familiarize the student with the techniques of synthetic organic chemistry; representative preparations involving library work. One conference hour and three laboratory periods. Prerequisites: Ch. 301-2 and Ch. 313-14 or Ch. 301-2 and Ch. 201-2 with permission of instructor. Spring. 3 sem. hrs.

**Ch. 313-314 Organic Chemistry** An intensive course in organic chemistry open only to majors in chemistry. Two lectures, one recitation and two laboratory periods. Prerequisites: Ch. 101-2. Fall and Spring. 8 sem. hrs.

## DEPARTMENT OF CLASSICAL AND MODERN FOREIGN LANGUAGES

Rev. Paul L. Callens, S.J., A.M., Chairman

### Latin

**Lt. 101-2 Basic and Intermediate** A course intended to give the essentials of grammar. It is open to all students who wish to begin the study of the classic languages in college. The semester hours will be credited toward the completion of the total hours required for graduation. Five periods a week. Credit is dependent on the completion of Lt. 102. Fall and Spring. 6 sem. hrs.

**Lt. 103 Latin Poets I** Selections from Ovid's *Metamorphoses*, Virgil's *Eclogues* and *Bucolics*, Horace's *Odes* and *Epodes*. Spring. 3 sem. hrs.

**Lt. 104 Latin Poets II** Selections from Virgil's *Aeneid*, Horace's *Ars Poetica*, *Epistles* and *Satires*. Fall. 3 sem. hrs.

**Lt. 201 Cicero I** Selections from Cicero's *Letters*, *de Amicitia*, *De Senectute*. Fall. 3 sem. hrs.

**Lt. 202 Cicero II** *Pro Milone*, *Verrine Orations*, etc. Spring. 3 sem. hrs.

**Lt. 203-4 Advanced Prose Composition** Daily translation exercises. Based on "The Gateway to Latin Composition." Fall and Spring. 6 sem. hrs.

**Lt. 301 Historians of the Silver Age** Selections from Livy. Fall. 3 sem. hrs.

**Lt. 303 Agricola of Tacitus** Fall and Spring. 3 sem. hrs.

- Lt. 309-10 Rhetorical Analysis of Cicero's Orations I and II**  
Fall and Spring. 6 sem. hrs.
- Lt. 311 Ovid:** Complete Metamorphoses. Fall. 3 sem. hrs.
- Lt. 312 Virgil:** Aeneid. Study of epic Latin poetry. Spring.  
3 sem. hrs.
- Lt. 313 Horace:** Critical study of the major works of  
Horace. Spring. 3 sem. hrs.
- Lt. 314 The Golden and Silver Ages of Latin Literature**  
Spring. 3 sem. hrs.
- Lt. 315 Special Research Problem for Latin majors only.**  
Fall. 3 sem. hrs.

### GREEK

- Gk. 101 Homer** A reading course in Homeric Greek. Essentials of Grammar. Vocabulary. Adventures of Odysseus with the Lotus eaters and Cyclops. Fall. 3 sem. hrs.
- Gk. 102 Homer** Adventures of Odysseus in the Underworld. Selections from the Iliad. Spring. 3 sem. hrs.
- Gk. 201 Plato and Demosthenes** Selections from Dialogues and Speeches. Fall. 3 sem. hrs.
- Gk. 202 Sophocles, Antigone, Oedipus Rex, Oedipus and Colonus.** Spring. 3 sem. hrs.
- Gk. 203 New Testament Epistles** Selections from St. John and St. Paul. Fall. 3 sem. hrs.
- Gk. 204 Greek Drama** A study of several of the plays of each of the following Greek dramatists: Aeschylus, Sophocles, Euripides, Aristophanes. Translations are employed in course, but the original text of each play read is studied in part. Fall. 3 sem. hrs.
- Gk. 311 Greek Lyric Poetry** Selections from Sappho, Alcaeus, Anacreon are all studied in the original text. Spring. 3 sem. hrs.

**FRENCH**

**Fr. 101-102 First Year College** The essentials of French. In conjunction with French 102, the course advances through graded reading and composition. For those who offer no language credits from High School. Five periods a week. Credit dependent upon completion of French 102. Fall and Spring. 6 sem. hrs.

**Fr. 201-202 Second Year College** Review grammar, selected readings in French. Collateral readings and composition. Fall and Spring. 6 sem. hrs.

**Fr. 303 Advanced French Conversation and Composition** The course is intended primarily for French majors. Pre-requisite: French 202 and permission of the instructor. Fall. 3 sem. hrs.

**Fr. 304 Advanced Conversation and Composition II** Pre-requisite: French 303 and permission of the instructor. Spring. 3 sem. hrs.

**Fr. 308 A Survey of French Literature I** Representative masterpieces from the literatures of the XVI, XVII, and XVIII centuries. Prerequisites: French 202 and permission of the instructor. Fall. 3 sem. hrs.

**Fr. 309 A Survey of French Literature II** Representative masterpieces from the literature of the XIX century. Prerequisites: French 202 and permission of the instructor. Spring. 3 sem. hrs.

**German**

**Gr. 101-102 First Year College** The essentials of German. In conjunction with German 102, the course advances through graded reading and composition. Three periods a week. Credit dependent upon completion of German 102. Fall and Spring. 6 sem. hrs.

**Gr. 201 Second Year College** Review grammar, selected readings in German. Collateral readings and composition. Fall. 3 sem. hrs.

**Gr. 210 Scientific German** Designed to familiarize students with the complexities of scientific German; basic science vocabulary and intensive drill in the sentence structure of learned discourse. Major emphasis is placed upon readings in the field of chemistry, physics and biology. This course replaced Gr. 202 for students taking the Bachelor of Science degree with a major in Science. Spring. 3 sem. hrs.

### Spanish

**Sp. 101-102 First Year College** The essentials of Spanish. In conjunction with Spanish 102, the course advances through graded reading and composition. For those who offer no language credits from High School. Five periods a week. Credit dependent upon completion of Spanish 102. Fall and Spring. 6 sem. hrs.

**Sp. 201-202 Second Year College** Review grammar, selected readings in Spanish. Collateral readings and composition. Fall and Spring. 6 sem. hrs.

**Sp. 308 A Survey of Spanish Literature I** Representative selections and masterpieces of Spanish literature to 1700. Prerequisites, Spanish 202 and permission of the instructor. Fall. 3 sem. hrs.

**Sp. 309 A Survey of Spanish Literature II** Representative selections and masterpieces of Spanish literature from 1700 to the present day. Prerequisites, Spanish 202 and permission of the instructor. Spring. 3 sem. hrs.

**Sp. 311 The Golden Age** A comprehensive interpretation of the poetry and drama. Spring. 3 sem. hrs.

**Sp. 322 International Trade** Spring. 3 sem. hrs.

**Sp. 341 Twentieth Century** A comprehensive interpretation of the poetry and drama. Fall. 3 sem. hrs.

### DEPARTMENT OF EDUCATION AND PHYSICAL EDUCATION

Rev. James F. Whelan, S.J., Ph.D., Chairman

#### Education

**Ed. 105 Foundation of Education** An orientation course to provide the prospective teacher with an understanding of the personal qualifications, relationship, and responsibilities of the teacher. Fall. 3 sem. hrs.

**Ed. 230 Child Psychology** The application of the laws and principles of psychology in the process of guiding and directing the growth and development of the child into adolescence. Fall. 3 sem. hrs.

**Ed. 254 Children's Literature** This course includes appropriate stories and poems of the accredited Louisiana Library List from the primary through the upper elementary level. Spring. 3 sem. hrs.

**Ed. 301 High School Teaching** The development, objectives, curriculum, administration, and supervision of the high school; guidance and extracurricular activities and evaluation at the high school level. Fall. 3 sem. hrs.

**Ed. 302 Adolescent Psychology** The application of the laws and the principles of psychology in the process of guiding and directing the growth and development of the individual from early adolescence to maturity. Spring. 3 sem. hrs.

**Ed. 310 History of Education** The historical foundations of modern education; the aims and methods of education in our western civilization. Spring. 3 sem. hrs.

**Ed. 333 Educational Psychology** The applications of psychology to the process of learning. Fall. 3 sem. hrs.

**Ed. 350 Student Teaching** One semester of directed observation, participation, conferences with the Supervisor of Student Teaching and with the critic teacher, and actual teaching. The directed observation, participation, and actual teaching must total 90 clock hours; the actual teaching must be 45 clock hours. At the secondary level the student teaching must be in a subject in which the student will be certified. Prerequisites for secondary-school teaching: a point-hour ratio of 1.25 quality points in the teaching field and the successful completion of Ed. 301, Ed. 302, and Ed. 351. Prerequisites for elementary teaching: the successful completion of the junior year of the elementary-school program. There is a fee of thirty dollars for this course. Fall and Spring. 4 sem. hrs.

**Ed. 351 Methods Related to Specific High School Courses** This course includes the psychology of specific high school subjects and the methods of teaching these subjects. Fall. 2 sem. hrs.

**Ed. 354 The Teaching of Arithmetic In The Elementary School** A review of arithmetic, the development of number concepts through insights and understandings growing out of the child's experience. The use and the interpretation of diagnostic materials and analysis of the abilities used in problem solving. Fall. 3 sem. hrs.

**Ed. 355 The Teaching of Science in the Elementary School**  
The offerings of nature study and science toward the unification of the curriculum stressed through the use of visual aids. Spring. 3 sem. hrs.

### Physical Education

**\*Ped. 101 Physical Activity** An introduction to fundamental activities in calisthenics, competitive, and combative sports. Fall. 2 sem. hrs.

**\*Ped. 102 Physical Activity** Advanced course in calisthenics, competitive and combative sports. Spring. 2 sem. hrs.

**Ped. 160 Professional Techniques, Health, Safety, and Physical Education, Course I** Basic skills, basketball, Fall. 2 sem. hrs.

**\*Ped. 161 Professional Techniques, Health, Safety, and Physical Education, Course II** Basic skills, baseball. Spring. 2 sem. hrs.

**Ped. 162 Principles, Organization, and Administration of Health, Safety, and Physical Education, Course I** The direction of intramural activities at the various grade levels. Fall. 2 sem. hrs.

**\*Ped. 360 Professional Techniques in Health, Safety and Physical Education, Course VI** Football. A continuation of Ped. 260. Fall. 3 sem. hrs.

**Ped. 361 Principles, Organization, and Administration of Health, Safety, and Physical Education, Course II** The management, aims, and objectives, and basic principles of the program of health, safety, and physical education. Spring. 3 sem. hrs.

**Ped. 362 Health Education, Course I** The history of health education, factual information, the administration of health examinations, modern trends in health education, the supervision of the program. Spring. 3 sem. hrs.

## GRADUATE WORK IN EDUCATION

The University has, over the years, built up an outstanding reputation in the education field, and it is only natural that Loyola's first step in the direction of graduate work should be where the need is most urgent and the facilities most favorable.

**Admission** The Graduate Division of the Department of Education offers advanced courses of instruction leading to the degree of Master of Education for properly qualified students who have been admitted either as classified or unclassified students in the Graduate Division of the Department of Education. Applications for admission must be filed with the Registrar of the College of Arts and Sciences one month before the beginning of the session when the student plans to begin graduate work. The application for admission must be accompanied by an official transcript of all undergraduate and graduate work completed at the time at which the application was made.

A. A classified student is one who received the bachelor's degree from a recognized college, who has no prerequisite undergraduate work to make up, who has completed the upper division work satisfactorily (i.e. with a mark of "B" or better) in the undergraduate major, who is following a program of studies leading to an advanced degree, and who has been admitted by the Executive Committee of the Department of Education as a classified graduate student.

B. An unclassified student is one who has received a degree from a recognized college and whose registration is for some reason considered provisional. An unclassified student may be one who does not intend to apply for an advanced degree but who is properly admitted and who desires to follow advanced courses of instruction. An unclassified student may be one who has prerequisite undergraduate courses to make up before being admitted to the classified status.

**Note** An undergraduate student of Loyola University who lacks not more than six semester hours of credit for a bachelor's degree and who has attained an average of "B" or better

in the upper division work of his undergraduate major may, upon the recommendation of his Dean and with the approval of the Executive Committee of the Department of Education, register for a maximum of six semester hours of graduate work provided that he meets all other requirements for classified students and provided that the total program of courses for credit and non-credit in graduate and undergraduate work does not exceed twelve semester hours.

C. Only the Executive Committee of the Department of Education has the final right to admit to the Graduate Division of the Department of Education. Hence the registration of an applicant is to be considered provisional and the determination of his status as tentative until such time as the Executive Committee has given its full and final approval.

D. A classified graduate student is admitted to candidacy for the degree of Master of Education by the Executive Committee of the Department of Education. A student desiring to be admitted to candidacy must file his application for candidacy for the degree at a date not later than two weeks after the opening of the semester in which the degree is sought. This application is made on special blanks provided by the Chairman of the Department of Education. Admission to candidacy for the degree of Master of Education shall not take place until the student shall have shown aptitude during a semester (twelve semester hours) to accomplish work of graduate character.

E. A foreign candidate for admission to Loyola University must take the English proficiency examination prepared by the Department of State. He should communicate with the United States diplomatic mission or consular office, cultural center of scholarship selection committee, nearest his home regarding arrangements for taking the test.

**Advanced Standing** Loyola University does not confer a degree upon anyone who has not completed an entire academic year of satisfactory work under the guidance of the University. For the integration of the graduate program, the student must take all of his graduate courses for his master's

degree at Loyola University. A maximum of six semester hours, however, may be accepted in exceptional instances by the Executive Committee of the Department of Education.

**Limit of Time** Work taken more than six years before the date at which the master's degree is expected may not be used to count for credit toward that degree.

**Residence** For the degree of Master of Education, one academic year of residence is required in a program of at least 30 semester hours of graduate work. This work must include one semester, or its equivalent in three Summer terms, as a full-time student. Not more than twelve semester hours may be scheduled by a full-time student in any one semester. A part-time student may schedule only one-half this amount of work. In Summer school not more than four semester hours may be scheduled in a six-week term.

**Course Requirements** The candidate must complete thirty semester hours of graduate work in course with a mark of "B" or better. If the student has, in the judgment of the administration of the department, an excessive amount of work of "C" quality, he will not be admitted as a classified graduate student, or he will not be admitted to candidacy.

**Course Program** The student's program is planned with his adviser from the full curriculum of graduate courses as listed below. Approximately one-third of the courses should be in one specific area, such as elementary education, or secondary education, or administration. This program is subject to the approval of the Executive Committee of the Department of Education. The program will include the following courses:

- |             |                                      |
|-------------|--------------------------------------|
| Ed. 401     | Philosophy of Education              |
| Ed. 410-411 | History of the Theories of Education |
| Ed. 490     | Methodology of Educational Research  |
| Ed. 491-492 | Statistics in Education              |

**Comprehensive Examination** A comprehensive written and oral examination covering the major field of work shall be passed by the candidate.

**Student Fees** The schedule of fees for the College of Arts and Sciences will be followed in the Graduate Division of the Department of Education.

## DEPARTMENT OF ENGLISH AND SPEECH

Rev. Eugene J. O'Connor, S.J., Ph.D., Chairman

### English

**En. 101-2 SN Freshman Composition for Student Nurses** Fall and Spring. 6 sem. hrs.

**En. 101 Freshman Composition** Rapid grammar review and introduction to accurate and comprehensive reading; introduction to research; the research paper. Fall and Spring. 3 sem. hrs.

**En. 102 Freshman Composition** Continuation of comprehensive reading; introduction to literary readings and forms; language as communication on all levels. Fall and Spring. 3 sem. hrs.

**En. 201 A Survey of English Poetry and Prose** Political, intellectual, and religious background from Beowulf to the Romantics. The course is required of all Sophomores. Fall. 3 sem. hrs.

**En. 202 A Survey of English Poetry and Prose** From the Romantics to the present day. This course is required of all Sophomores. Spring. 3 sem. hrs.

**En. 307 Shakespeare's Comedies** The theory of comedy; the development of comedy with special reference to selected comedies. Spring. 3 sem. hrs.

**En. 314 Milton** A study of the background and work of the great Puritan poet. His principal prose and poetical works are thoroughly analyzed. Fall. 3 sem. hrs.

**En. 319 Newman** His commanding position in the religious and intellectual life of the nineteenth century; a study of "The Present Position of Catholics in England", "The Idea of a University", and the "Apologia Pro Vita Sua". Fall. 3 sem. hrs.

**En. 360 Modern English Drama** A study of certain recent developments in English drama with a survey of the nineteenth century background. The closet drama, the melo-drama, the thesis play, the Irish school, and recent trends will be considered. Spring. 3 sem. hrs.

**En. 380 Introduction of Bibliography and Research Method** A course designed to introduce the student to the methods and principles of English scholarship. Typical exercises and practical training will be given in the bibliography of literary study. Required of English majors. Fall and Spring. 2 sem. hrs.

**En. 385 British Novel** Beginning to Hardy; the trend of thought; the change in technique; the background of philosophy. Fall. 3 sem. hrs.

**En. 386 American Poetry** A study of three centuries of American poetry. It includes the older poets, whose work lives today, but stresses the better known modern poets. Spring. 3 sem. hrs.

**En. 388 American Literature Since 1865** A survey of major literary trends since the Civil War together with a study of the more significant American writers of these years. Fall. 3 sem. hrs.

### Speech

**Ex. 101 Fundamentals of Speech** Study of elemental factors governing good speech content and speaking habits in address; expressive English, correct and distinct oral diction, vocal form, posture, platform manners; analysis of the relation between voice and personality; developing poise and freedom of bodily movement. Fall. 3 sem. hrs.

**Ex. 102 Fundamentals of Speech** Objectives of speaking; preparation, composition and delivery of speeches; organization and development of ideas; style in the spoken word; the types of public address; oratory, argumentation, debate. Theory and practice are intermingled; practical training in debating. Spring. 3 sem. hrs.

**Ex. 201 Dramatic Interpretation** Fundamentals of acting, line interpretation, establishing mood, analyzing character; detail work in pantomime. Fall. 3 sem. hrs.

**Ex. 202 Dramatic Interpretation** A practical course in the technique of acting; creating a role; mental and emotional phases of the art as well as the development of technical skill; practical application of these principles and skills; stage movement, voice and line reading. Required membership in dramatic group of the University. Spring. 3 sem. hrs.

**Ex. 203 Argumentation and Debate** The types of public address and the basic forms of support; audience analysis and motivation; introduction to the principles of logic persuasion as applied in group discussions and debates; functions of the chairman, participants, audience; parliamentary law; the forum and panel types of discussion. Fall. 3 sem. hrs.

**Ex. 204 Argumentation and Debate** Introduction to the principles of argumentation as applied to debate; how to build and defend a case; reasoning and refutation. Required membership in the debating group of the University. Spring.

3 sem. hrs.

**Ex. 306 Oral Interpretation of Literature** A study of the techniques of oral presentation of prose, poetry, drama; practice in the delivery of selected types; exercise for the development of tone, melody, timing, and emphasis. Fall. 3 sem. hrs.

**Ex. 308 Contemporary Theater** Studies current influences and trends of play writing and play production for amateur and professional stage; artistic and technical development from 1900 to the present; selected types and styles of plays. Spring.

3 sem. hrs.

**Ex. 309 Play Direction and Production** The principles of play direction; stage composition, movement, grouping, and business; control and development of tempo, rhythm, climax; study of production problems (play selection, casting, lighting, scenery, costuming, properties, publicity) as they contribute to the unity and total effect of the play. Fall. 3 sem. hrs.

**Ex. 310 Advanced Acting** A continuation of Ex. 202 for greater facility in the expression of character and emotional reaction through the study of a wide variety of roles. The presentation of an outstanding character interpretation will be required of each student. Fall.

3 sem. hrs.

## DEPARTMENT OF JOURNALISM

Rev. John A. Toomey, S.J., A.M., Chairman

**Jr. 101-2 Techniques of Effective Writing I, II** Practical exercises in writing with critical analysis and literary style. Required for freshmen. Fall and Spring. 2 sem. hrs.

**Jr. 201 News Writing** Elements of news; the lead; style and structure of news stories; news sources; intensive practice in writing leads and the simpler types of stories. Writing done during the laboratory periods is checked and corrected and each student is offered the opportunity for personal conference with the instructor several times during the semester. Fall.

3 sem. hrs.

**Jr. 202 News Reporting** A continuation of Jr. 201. Emphasis is on developing news judgment and craftsmanship along with skill in the reporting and writing of more complex types of news stories. By lecture and round table discussion, the student is taught how to understand the various types of news events, how to cover them, and how to write the story. Spring.

3 sem. hrs.

**Jr. 203-204 Writing Techniques III, IV** A thorough study of the techniques of effective writing with special emphasis placed on the production of articles suitable for publication in various journals and newspapers. Fall and Spring.

2 sem. hrs.

**Jr. 207-8 News Editing** Lectures and intensive practice in copy reading for errors of fact, of English, and of newspaper style; headline writing; news values and policy; libel; page layouts and makeup; reader interest. Students work on the copy desk of The Maroon. Required of all who take Journalism as a field of concentration. Prerequisite: Jr. 201-202. Fall and Spring.

6 sem. hrs.

**Jr. 305 Ethics of Journalism** A study of the moral principles of journalism and of their general application in the present practice of journalism. Fall.

3 sem. hrs.

**Jr. 306 Modern Feature Writing** Analysis of semi-news copy. The field for feature articles; study of newspaper feature articles for daily feature pages, Sunday magazine supplements, and special departments; magazine articles; structure and style; practice in writing features. Spring.

3 sem. hrs.

**Jr. 321 Editorial Writing** Analysis of current news problems. The course seeks to correlate background social science courses and focus them on current affairs. It seeks to familiarize students with reference works and source materials bearing on the background of the news. The function of the editorial; analysis of policies; editorial structure and style; types of editorials. Intensive practice in writing editorials and interpretative articles. Fall.

3 sem. hrs.

**Jr. 331-332 Supervised Publication Work** Staff duty on The Maroon and practice assignments on New Orleans newspapers; conferences with the instructor. Open only to Juniors and Seniors. Required of all students taking Journalism as a field of concentration. Prerequisite: Jr. 207-208. Fall and Spring.

4 sem. hrs.

**Jr. 340 Public Opinion and Propaganda** The nature of public opinion; the role of the newspaper in its formation and how the press in turn is influenced by public opinion. Propaganda analysis; the purpose, devices and effects of propaganda and censorship. The different techniques of censorship. Fall.

3 sem. hrs.

**Jr. 341 Press and World Affairs** Political, economic, and ethical elements in the world press. Emphasis is placed on the comparison between the press in Europe and the press in the United States, considering pre-World War II conditions as well as changes and developments since World War II. The press as a factor in international affairs. A study of foreign news, the methods by which it is obtained by correspondents in various countries, and the factors affecting news from abroad. Spring.

3 sem. hrs.

**Jr. 342-3 Workshop** Practice in literary production worthy of publication. Basic techniques in the use of the camera; radio programming. Fall and Spring.

2 sem. hrs.

## DEPARTMENT OF HISTORY AND POLITICAL SCIENCE

Rev. Charles C. Chapman, S.J., Ph.D., Chairman

### History

**Hs. 101 Survey of World History I** The purpose of this course is to give an introductory view of history as a whole. In this semester, early civilizations are studied in their political, economic, social, and religious aspects, and their contributions to modern civilization evaluated. Fall.

3 sem. hrs.

**Hs. 102 Survey of World History II** In this semester, past movements are coordinated with present civilization by studying the present in the light of the past. Special emphasis is placed throughout on the unity and continuity of history. Spring.

3 sem. hrs.

**Hs. 201 Survey of United States History I (1492-1865)** Discoveries and settlements; French and Indian wars; economic development; independence; the "Articles" and the "Constitution"; era of Jefferson; westward movements; the "American system"; the "reign" of Jackson; the Civil War. Fall.

3 sem. hrs.

**Hs. 202 Survey of United States History II (1865-1954)** Reconstruction; economic and social developments; imperialism; agriculture vs. industry; growth of monopolies and trusts; World War I; the New Deal; American interest in world affairs; World War II; toward Internationalism. Spring.  
3 sem. hrs.

**Hs. 321 Modern Europe I (1500-1689)** National monarchies; empires and city-states; commercial revolution; the Protestant revolt; Charles V and Philip II; religious wars in Europe; Catholic reformation; the Stuarts and the Parliament; Age of Louis XIV; British revolutions; European wars. Fall.  
3 sem. hrs.

**Hs. 322 Modern Europe II (1689-1848)** French-Spanish-Dutch wars for colonial and commercial supremacy; decline of Spain; rise of Russia and Prussia; dismemberment of Poland; "benevolent despots"; "Old Regime" and the French Revolution; the Hanoverians; Napoleon; Congress of Vienna; reaction against liberalism; Holy Alliance; Metternich; Revolutions of 1848. Spring.  
3 sem. hrs.

**Hs. 351 Latin American History** Central and South American States; discovery, conquest and colonization of the Caribbean, Central and South American areas; early provincial and State Governments; vice-royalties; Spanish-American relations; effects of the European wars; independence from Spain; solidification; revolutions and the present trend. Spring.  
3 sem. hrs.

**Hs. 361 Louisiana History** The early settlers and the French regime; the Spanish regime; the Louisiana Purchase; the State before, during, and after the Civil War; Modern Louisiana. Fall.  
3 sem. hrs.

### Political Science

**Psc. 201 European and Comparative Government I** GREAT BRITAIN: the origin of the British Constitution; the Crown; Parliament; the Legal System; local government; problems of Empire and Commonwealth. FRANCE: The heritage of the Revolution; the Third Republic, its constitutional structure and failure; the Fourth Republic, its weaknesses and prospects; British and French Parliamentary Systems compared. Fall.  
3 sem. hrs.

**Psc. 202 European and Comparative Government II** **GERMANY:** historical backgrounds; the Hohenzollern Empire (1871-1918); the Weimar Republic (1918-1933); National Socialism (1933-1945); Allied Occupation and control; rebirth of German political life. **SOVIET UNION:** historical background and communist revolution; Lenin and consolidation; Stalin in power; the Soviet government in theory and practice; communist system and the world. Comparative governments; democracy vs. dictatorship; constitutions; separation of powers; legislatures and political parties. Spring.

3 sem. hrs.

## DEPARTMENT OF LIBRARY SCIENCE

**James W. Dyson, A.M., B.S. in L.S., Chairman**

**Ls. 201 School Library Administration** A study of the administration and organization of school libraries; the use and development of school library service; the place of the library in the modern school; faculty-library and student-library relationships; the acquisition and care of library materials; practice in the method of processing library materials; practice in library service and procedures; the purchase of library supplies.

3 sem. hrs.

**Ls. 202 Functions of the School Library** The selection and evaluation of basic reference materials essential in school libraries; methods of introducing the library and library materials to students; the principles of classification and cataloging; practice in the interpreting of materials through poster making, displays, bulletin boards.

3 sem. hrs.

**Ls. 311 Selection of Books for Children** Study of the aids and standards for the selection of books for children; the reading interests of children and their relation to basic book selection; classic and current books are read and evaluated to develop ability in recognizing the literature that appeals to children; study of the types of illustrations in children's books.

3 sem. hrs.

**Ls. 312 Selection of Books for Young People** Survey of literature particularly suited for the use of high school students; classic and contemporary books are read and evaluated; critical study of the reading interests of high school students and the aids and bibliographies available for book selection; relation of reading to the courses in the high school curriculum is studied. 3 sem. hrs.

**Ls. 351 The Selection of Library Materials (Grades 1-12)** The selection of a balanced collection; investigation of the various types of binding, editions, format and publishers; the evaluation of the standard reference books such as encyclopedias, dictionaries, periodical indexes, biographical dictionaries, and reference tools in special subjects. 3 sem. hrs.

**Ls. 371 Audio-visual Materials** The selection, source and the use of these aids; integrating the curriculum with present holdings; the purchase, housing and care of materials. 3 sem. hrs.

**Ls. 390 School Library Observation and Practice** Organized to give experience and practice in the various phases of school librarianship; includes actual work with library tools, the mechanical preparation and repair of books, teaching the use of the library. 3 sem. hrs.

## DEPARTMENT OF PHILOSOPHY

Rev. Joseph S. Bogue, S.J., Ph.D., Chairman

**Pl. 101-SN Psychology** This course treats of the nature of the human mind, will and memory, and their activities in normal and abnormal behavior. It aims to give the student a better insight into human behavior and a better understanding of herself or himself and her or his parents. It treats of mental conflicts, complexes and abnormal behavior as a preparation for subsequent courses in psychiatry. (For student nurses only.) Fall. 3 sem. hrs.

**Pl. 102-SN Ethics** Definition, nature, object and necessity of norms of morality with special emphasis laid on nursing and medical ethics. (For student nurses only.) Spring. 3 sem. hrs.

**Pl. 201 Logic** Definition and division of philosophy; acts of the mind; external expression of these acts; forms of argumentation; fallacies; logical truth; certitude; criteria of truth.

Fall.

3 sem. hrs.

**Pl. 202 Metaphysics I** Being, its objective concept; essence; states of being; existence; possibility, internal and external; sources of internal possibility; kinds of being; substance and accident; distinction between nature and person; attributes of being; principle of causality. Prerequisite: Pl. 201. Spring.

3 sem. hrs.

**Pl. 203 Metaphysics II** Origin of the world; finality of the world; existence of God; God and the world. Prerequisite: Pl. 202. Fall.

3 sem. hrs.

**Pl. 212 Survey of Medieval Philosophy** Study of patristic and scholastic philosophy. Fall.

3 sem. hrs.

**Pl. 301 Psychology** Life in general; empirical observation of vital action; the power of self-motion; purposive activity; immanency of action; scholastic concept of life; the three essentially different grades of life; the prime principle of life; the theory of evolution; the nature of the soul; the origin of the soul; the immortality of the soul; union of soul and body. Prerequisite: Pl. 202. Spring.

3 sem. hrs.

**Pl. 302 General Ethics** Definition, nature, object, and necessity of ethics; subjective and objective ultimate end of man; human action; its merit and imputability; norm of morality; true and false; Law, natural and positive. Prerequisite: Pl. 203 or Pl. 306, and Pl. 301. Fall.

3 sem. hrs.

**Pl. 303 Individual and Social Ethics** Man's duty to his Creator; man's duty to himself; man's duty to his neighbor; duties to property; society; domestic, civil, international, religious. Prerequisite: Pl. 302. Spring.

3 sem. hrs.

## DEPARTMENT OF PHYSICS AND MATHEMATICS

Rev. Karl A. Maring, S.J., Ph.D., Chairman

### A. Physics

**Ph. 201-3 General Physics** The principles of mechanics, heat, sound, light, magnetism, electricity, and fundamentals of atomic physics constitute this course. Three lectures each week. Prerequisite: Mt. 103-5. Fall and Spring.

6 sem. hrs.

**Ph. 202-4 General Physics** Laboratory course. About fifty graded experiments in mechanics, heat, sound, light, magnetism, and electricity. Fall and Spring. 2 sem. hrs.

**Ph. 211-13 General Physics** An intensive course in general physics. It is intended for students whose major fields of concentration are chemistry, mathematics, or physics, as well as for pre-engineering students. The objectives of this course is a thorough grounding based on rigorous mathematical treatment in the fundamentals of mechanics, wave motion, sound, heat, light, magnetism, electricity, and molecular physics. Minimum prerequisite: Mt. 107-8. Fall and Spring. 8 sem. hrs.

**Ph. 212-14 General Physics** A companion laboratory course of about fifty selected experiments to Ph. 211. Two laboratory periods each week. Fall and Spring. 2 sem. hrs.

**Ph. 301-3 Electricity and Magnetism** A lecture course giving an extended and mathematical treatment of the theory and practical applications. Three lectures per week. Prerequisites: Ph. 211-14, Mt. 301-302. Fall. 6 sem. hrs.

**Ph. 302-4 Electrical Measurements** Laboratory work in electricity and magnetism. Coordinated with Ph. 301-303 and having the same prerequisites. Two laboratory periods. Spring. 4 sem. hrs.

**Ph. 305 Electron Theory** A course stressing the electron theory in its relation to general electric phenomena, to radio activity, X-rays, and atomic structure. Three lectures per week. Prerequisites: Ph. 301. Fall. 3 sem. hrs.

**Ph. 307-9 Analytical Mechanics** The elementary theory of the statics, kinetics, and dynamics of particles and rigid bodies. Three lecture periods. Prerequisites: Same as for Ph. 301-303. Spring. 6 sem. hrs.

**Ph. 311 Optics** The fundamental principles of geometrical and physical optics, with an introduction to modern theories of radiation. Prerequisite: Same as for Ph. 301-303. Three lecture periods. Fall. 3 sem. hrs.

**Ph. 312 Optical Measurements** This is a laboratory course to accompany Ph. 311. It includes measurements on the index of refraction, spectrometry (visible spectrum), focal length of converging lenses and lens systems, lens aberrations, interference, photometry, polarized light. Two laboratory periods. Spring. 2 sem. hrs.

**Ph. 315 Heat and Thermodynamics** First and second law of thermodynamics, with special application to the problems of chemistry. Prerequisite: Same as for Ph. 301-302. Three lecture periods. Fall. 3 sem. hrs.

**Ph. 316 Laboratory Course in Heat** This course is intended as a laboratory course to accompany Ph. 315. Two laboratory periods. Fall. 2 sem. hrs.

**Ph. 319 Sound** The dynamics of vibrating bodies; transmission of sound; architectural acoustics, loud speakers, and microphones; supersonics; characteristics of speech and hearing. Prerequisites: Same as for Ph. 301-302. Three lecture periods. Spring. 3 sem. hrs.

**Ph. 320 Laboratory Work in Sound** The course is designed to illustrate by experiment the principles of Ph. 319. Two laboratory periods. Spring. 2 sem. hrs.

**Ph. 331-333 Atomic Physics** The origin and development of some of the more important concepts of Physics with special emphasis on the theories and developments of the last half century. Prerequisites: same as for Ph. 301. Two lecture periods and one laboratory period per week. Fall. 6 sem. hrs.

**Ph. 335-337 Electronics and Radio Physics** The electron and its properties; thermionic and photo-electric emission; radio transmission and receiving circuits and apparatus. Prerequisite: Ph. 301-303, Mt. 310. Three lecture periods. Spring. 6 sem. hrs.

**Ph. 336-338 Practical Electronics and Radio Physics** A laboratory course designed to accompany and illustrate Ph. 335-336. Two laboratory periods each week. Fall. 4 sem. hrs.

**Ph. 339 Applied Electronics** Electron dynamics, vacuum tube theory, vacuum tube rectifiers and power supplies, photo-electric cells, gaseous tubes, vacuum tube voltmeters, cathode-ray oscilloscope. Two lectures per week. Spring. 2 sem. hrs.

**Ph. 340 Experimental Electronics** A group of experiments closely related to lecture Course 339 and designed to illustrate the principles and applications discussed therein. One two-hour laboratory per week. Fall. 1 sem. hr.

### Mathematics

**Mt. 101 College Algebra** This course begins with a review of high school algebra: operations with fractions and decimals. It is designed for students deficient in prerequisites for Mt. 103. There are five periods per week. Fall. 3 sem. hrs.

**Mt. 103 College Algebra** Fundamental algebraic operations, addition, subtraction, multiplication, division, factoring, equations; theory of equations. This course fulfills the algebra requirement for all students except those who elect their field of concentration in mathematics, chemistry or physics. Fall and Spring. 3 sem. hrs.

**Mt. 105 Plane Trigonometry** Trigonometric functions of acute angles; use of the table of natural functions; the right triangle; trigonometric functions of any angle; functions of the sum or the difference of two angles; the oblique triangle; graphs of functions; trigonometric identities and equations; applications of trigonometry to algebra. Fall and Spring. 3 sem. hrs.

**Mt. 107-8 Freshman Mathematics** This course is to be a combination of Algebra, Trigonometry and Analytic Geometry based on Brinks: "First year college Mathematics." Five hours per week. Fall and Spring. 10 sem. hrs.

**Mt. 109-10 Mathematical Analysis** A combined course integrating all the usual topics of algebra, trigonometry, analytic geometry and an introduction to calculus. This course is offered to pre-medical, pre-dental and students planning to enter the College of Pharmacy. Three periods per week. Fall and Spring. 6 sem. hrs.

**Mt. 203 Plane Analytic Geometry** Different systems of coordinates; point; straight line; conics; transformation of coordinates; higher plane curves: Prerequisite: Mt. 103, Mt. 105. Spring. 3 sem. hrs.

**Mt. 204 Analytic Geometry and Calculus** A study of usual topics of plane analytical geometry with an introduction to calculus. Summer. 3 sem. hrs.

**Mt. 206 Elementary Surveying** Theory and practice of plane and topographic surveying. Introductory exercises in the use of the tape, transit and level; a complete topographic survey of a given area using the stadia method and plane table; engineering astronomy for the determination of azimuth, time and latitude. Spring. 3 sem. hrs.

**Mt. 301 Differential Calculus** Functions; limits; derivatives; successive derivatives; maxima and minima; roots; differentials; curvature; theorem and mean value; indeterminate forms. Prerequisite: Mt. 107-8. Fall. 3 sem. hrs.

**Mt. 302 Integral Calculus** Integration by all methods; evaluation of the constant integration; the definite integral; the fundamental theorem of integral calculus; series; multiple integrals. Prerequisite: Mt. 301. Spring. 3 sem. hrs.

**Mt. 310 Differential Equations** Equations of the first order and first degree; equations of the first order but of higher degree; linear equations of a higher order with constant coefficients; total differential equations; simultaneous equations; homogeneous linear equations; equations of higher order and higher degree; integration in series. Prerequisite: Mt. 302. Fall. 3 sem. hrs.

**Mt. 312 Theory of Equations** Descartes' rules; Sturm's theorem; Lagrange's and Newton's methods of solution of equations; solution of equations by radicals; Cardan's formula; Vandermonde's principle; graphical solution of equations; introduction to the theory of groups. Prerequisite: Mt. 103, 105, 301. Spring. 3 sem. hrs.

**Mt. 350-51 Introduction to Modern Algebra** A course based on Birkoff and MacLane's survey of modern algebra. Fall and Spring. 6 sem. hrs.

**Mt. 353 Introduction to Theory of Mathematical Probability** Spring. 3 sem. hrs.

### Drawing

**Dr. 101-102 Elementary Mechanical Drawing** Lettering; applied geometry; orthographic projections; auxiliary views; revolutions; isometric and oblique projections; developments. Fall and Spring. 6 sem. hrs.

**Dr. 201 Descriptive Geometry** Orthographic drawing; auxiliary views; point-line-plane problems; revolution; concurrent non-coplanar forces; curved lines and surfaces; practice and drafting-room problems. Fall. 3 sem. hrs.

### DEPARTMENT OF SOCIOLOGY

Rev. Joseph H. Fichter, S.J., Ph.D., Chairman

**Sl. 101 Introductory Sociology** Basic concepts and empirical data concerning human relations in society. Fall. 3 sem. hrs.

**Sl. 102 Social Institutions** Study of social processes, community life and major institutions. Spring. 3 sem. hrs.

**Sl. 205 Social Problems I** Maladjustments centered in the American industrial economy and flowing from it. Fall. 3 sem. hrs.

**Sl. 206 Social Problems II** General course in social problems with emphasis on delinquency, health, child welfare, race relations and population. Spring. 3 sem. hrs.

**Sl. 311 Group Conflict and Cooperation** A course in social psychology treating the major areas of group relations. Fall. 3 sem. hrs.

**Sl. 312 Social Psychology** The development of personality through social relations; the motivation and control of social behavior. Spring. 3 sem. hrs.

**Sl. 318 Rural Sociology** The development of agricultural industry and rural communities. Fall. 3 sem. hrs.

**Sl. 319 Crime and Juvenile Delinquency** A scientific approach to the causes, prevention and correction of criminality. Spring. 3 sem. hrs.

**Sl. 322 Contemporary Sociological Theorists** From Comte to the present time. Spring. 3 sem. hrs.

- Sl. 326 Methods of Social Research** Principles and objectives planning techniques and interpretation in social research. Fall. 3 sem. hrs.

### DEPARTMENT OF THEOLOGY

Rev. Louis G. Soniat, S.J., A.M., Chairman

- Th. 105 Scripture** Four Gospels and Life of Christ. Fall. 2 sem. hrs.
- Th. 106 Catholic Apologetics** Christ's revelation; Founding of Church; Church in World Today. Spring. 2 sem. hrs.
- Th. 207 Catholic Morality** Foundations of Morality; Fundamental laws of Morality; Commandments One to Five. Fall. 2 sem. hrs.
- Th. 208 Catholic Morality** Commandments Six to Ten. Precepts of Church; Essentials of Canon Law on Marriage. Spring. 2 sem. hrs.
- Th. 302 Dogma I** Fundamental Mysteries of Faith: Trinity, Original Sin, Incarnation, Redemption. Fall. 2 sem. hrs.
- Th. 303 Dogma II** Supernatural Life: Grace Actual and Sanctifying. Spring. 2 sem. hrs.
- Th. 304 Dogma III** Sacramental Life; Supernatural Life as Channelled through the Sacraments (Matrimony excluded). Fall. 2 sem. hrs.
- Th. 305 Dogma IV** Eschatology; Final end of Man in Beatific Vision or Frustration of that End in Hell. Spring. 2 sem. hrs.
- Th. 307 Dogma VI** Eucharistic Theology: An explanation of the Mass: Dogmatic, moral, liturgical. Prerequisites: Th. 302 and/or Th. 304 and a minimum of 3 semesters of Philosophy. Fall. 2 sem. hrs.
- Th. 311 Christian Marriage** A dogmatic and moral explanation of the Sacrament of Matrimony. Spring. 2 sem. hrs.

**SATURDAY CLASSES  
COURSE OFFERINGS****Chemistry**

- Ch. 101 General Inorganic. Fall. 4 sem. hrs.  
Ch. 102 General Inorganic. Spring. 4 sem. hrs.

**EDUCATION**

- Ed. 152 Art for Elementary School Teachers Fall and Spring. 3 sem. hrs.  
Ed. 155 Geography for Elementary School Teachers Fall and Spring. 3 sem. hrs.  
Ed. 302 Adolescent Psychology Fall and Spring. 3 sem. hrs.

**PHYSICAL EDUCATION**

- Ped. 150 Introduction to Health, Safety, and Physical Education for Teachers Course I Fall. 2 sem. hrs.  
Ped. 381 Professional Techniques in Health Safety, and Physical Education, Course VIII Fall. 2 sem. hrs.  
Ped. 389 Elementary-School Program of Physical Education, Course I Spring. 2 sem. hrs.

**ENGLISH**

- En. 201 A Survey of English Prose and Poetry Fall and Spring. 3 sem. hrs.  
En. 307 Shakespeare's Comedies Fall and Spring. 3 sem. hrs.  
En. 380 Introduction to Bibliography and Research Method Fall and Spring. 2 sem. hrs.  
En. 388 American Literature Since 1865 Fall and Spring. 3 sem. hrs.

**HISTORY**

- Hs. 101** Survey of World History I Fall and Spring. 3 sem. hrs.
- Hs. 201** Survey of United States History I (1492-1865)  
Fall and Spring. 3 sem. hrs.
- Hs. 301** Ancient History (4000 B.C.-100 B.C.) Fall and  
Spring. 3 sem. hrs.

**LATIN**

- Lt. 303** Agricola of Tacitus  
Fall and Spring. 3 sem. hrs.

**LIBRARY SCIENCE**

- Ls. 201** School Library Administration 3 sem. hrs.
- Ls. 202** Functions of the School Library 3 sem. hrs.
- Ls. 312** Selections of Books for Young People Fall and  
Spring. 3 sem. hrs.
- Ls. 390** School Library Observation and Practice Fall and  
Spring. 3 sem. hrs.

## RADIO STATION WWL

Rev. W. D. O'Leary, S.J., M.D., Director

W. Howard Sommerville, Manager

**History** The history of Radio Station WWL goes back to the early days of radio pioneering in this country. The University's radio station grew out of experiments in the laboratory of the Physics Department and presented its first broadcast from Marquette Hall on the university campus in 1922. It has grown and developed and extended the scope of its usefulness until at the present time it is one of the relatively few 50,000-watt clear channel broadcasting stations in the country. The WWL radio station operates as a department of the university in cooperation with the speech and English departments.

**Activities** The University presents many and varied programs. The *Faculty Panel* presents timely subjects each week. *University Time*, a weekly program over the air, features radio plays and dramatizations composed, produced and directed by students of the University and personnel of the radio station. *Education Today* is a fifteen minute interview program featuring faculty members discussing their fields of study. *Time Out for Listening* is a musical program designed for easy listening. *Campus Capers* is a fifteen minute musical variety show presented by Loyola students featuring top talent from all departments of the University. Each day a religious program is presented over the air titled *Thought for a Day*.

**Courses** Courses are offered in the field of radio including Radio Announcing, Radio Script Writing, Radio Acting and Directing and Radio Programming. These courses are given both on the university campus and at the down town studio of WWL by members of the staff.

## THE ST. CHARLES COLLEGE DIVISION

GRAND COTEAU, LA.

Saint Charles College, situated at Grand Coteau, Louisiana, in the southwestern part of the state, is a part of the College of Arts and Sciences of Loyola University. It is the training school for the members of the New Orleans Province (Southern States) of the Society of Jesus. The collegiate studies pursued there are the first part of the educational training in the formation of a Jesuit. These four years of study are followed by three years in the School of Philosophy and Science, by a period of teaching of three to five years, then by four years of theology in the School of Divinity, and finally by one year devoted to higher ascetical study.

On his admission to the Jesuit Order, the student begins a period of two years of study that is largely ascetical, consequently non-academic, in character. To keep up his academic interests, however, about three hours each day are devoted to academic study, one to Latin, another to Greek, and a third to English, and vacations as well as other periods of leisure are utilized for the acquisition of modern foreign languages.

During the second period of two years, however, the student's interest is concentrated on humanistic studies. As a majority of the members of the Jesuit Order spend their entire lives in teaching or in school administration, all are required to spend from three to five years in teaching, between the period of their philosophical and that of their theological studies. The training required for such a life of classroom activity is begun in the St. Charles College Division of the College of Arts and Sciences.

In accordance with these purposes of the school, the enrollment in this Division is limited to the members of the Jesuit Order.

**Requirements** The minimum entrance requirement to this **For Admission** Division is the completion of a standard high school course requiring four years of Latin. A large number of students, however, have completed at least two years of college study. Because of the differences in previous preparation, private study under the most careful individual guidance and a modified tutorial method of instruction are offered the

student to enable him to enjoy the fullest opportunity for self-development.

**Advanced Standing** Students who have already secured their baccalaureate degree, or who have finished a portion of their college work, may complete the required studies in a shorter time than the period ordinarily prescribed. Under exceptional circumstances, the student may be required to take only courses in education, so that he may comply with the prerequisites for teaching as demanded by law in the various states and by the prescriptions of the standardizing agencies.

**Organization and Courses** The St. Charles College Division is administered by an Associate Dean of the College of Arts and Sciences.

Since one of the primary purposes of the Division is the education of future teachers, the various systems of education in their historical development as well as in their practical effects are reviewed, but emphasis is placed largely upon the *Ratio Studiorum*, which is the method of teaching traditional in the Jesuit Order. Another primary purpose of the Division is to deepen the student's appreciation and love of the classical languages, and every effort is made to develop scholarly interest in the subjects on the part of those who show special aptitude.

**Examinations** Examinations are held at the end of each semester. They are both oral and written, and a rigorous test is exacted in each of the subjects of study. If it should be found that a student is unable to complete the courses in a satisfactory manner within the prescribed time, he is required to add one or more years to his course before being allowed to proceed.
